# What's most important for the future of Broadway Blvd.?

That is more traffic but not through adding more lanes for cars but by better traffic engineering, more transit, bike lanes and sidewalks. Beautify it as well.

Walkable broad... way, inviting to stroll easy to cross easy to shop ; access biz

To Become A Destination For People to Shop, Eat, Meet, Congregate - to Be A Vibrant, Vibrant Place Not A Traffic Corridor to Merely Move People Through

Sense of place save our business & historic bldgs!

'elegant' is a great description

Please consider future maintenance & - better to pay a bit more up front (not lowest bidder) & get excellent quality materials ~~in order to~~ which should delay any maintenance due to potholes, etc. Which have their own cost - traffic delays, business impacts, etc.

Looking forward to a great job! Best wishes to all!

Create a better entry way to downtown that is:

elegant
historic
safe

and Clean up the brownfields

Too much asphalt

Still possible elegant, historic

Make sure Broadway improves as a destination, not just a roadway to somewhere else!

Broadway from Country Club

To downtown is busy, at least in the rush hour. Future growth is not to be easy; it is to the north and to a lesser extent South.

i suggest a road diet! let's move people, not vehicles

Broadway can become a vital extension of downtown + the UA if we remain sensitive to the unique historic context + encourage the economic development of small local businesses along the corridor.

Make my commute safe and quick, whether I drive, take or bus!

Maintain / improve property values of adjoining neighborhoods, including El Encanto, etc.

unique historic area

still a real neighborhood

Broadway needs a project, but what kind? I want to see this road redesigned to put the safety and comfort of our most vulnerable roadway users first. Build improvements for people not cars! It's people that come into and support businesses - not cars, and more people would come by foot or by bike and transit if it was more convenient and comfortable option.

celebrate it's mid-century heritage w/ more local businesses

turnouts too!

Make crossing it North → South → North easier and safer Now!

MORE BUSES to RIDE

Preservation of small local businesses & historic uniqueness of area should be paramount!

To not consume the surrounding neighborhoods.

KEEP BICYCLE and PEDESTRIAN-FRIENDLY OPTIONS to ENCOURAGE CHARACTER AND PROMOTE LOCAL OPPORTUNITIES (not just man/franchise)

To be 'modern' enough to accomodate future needs.

Use funds effectively.

historic area / pedestrian walkability / life
