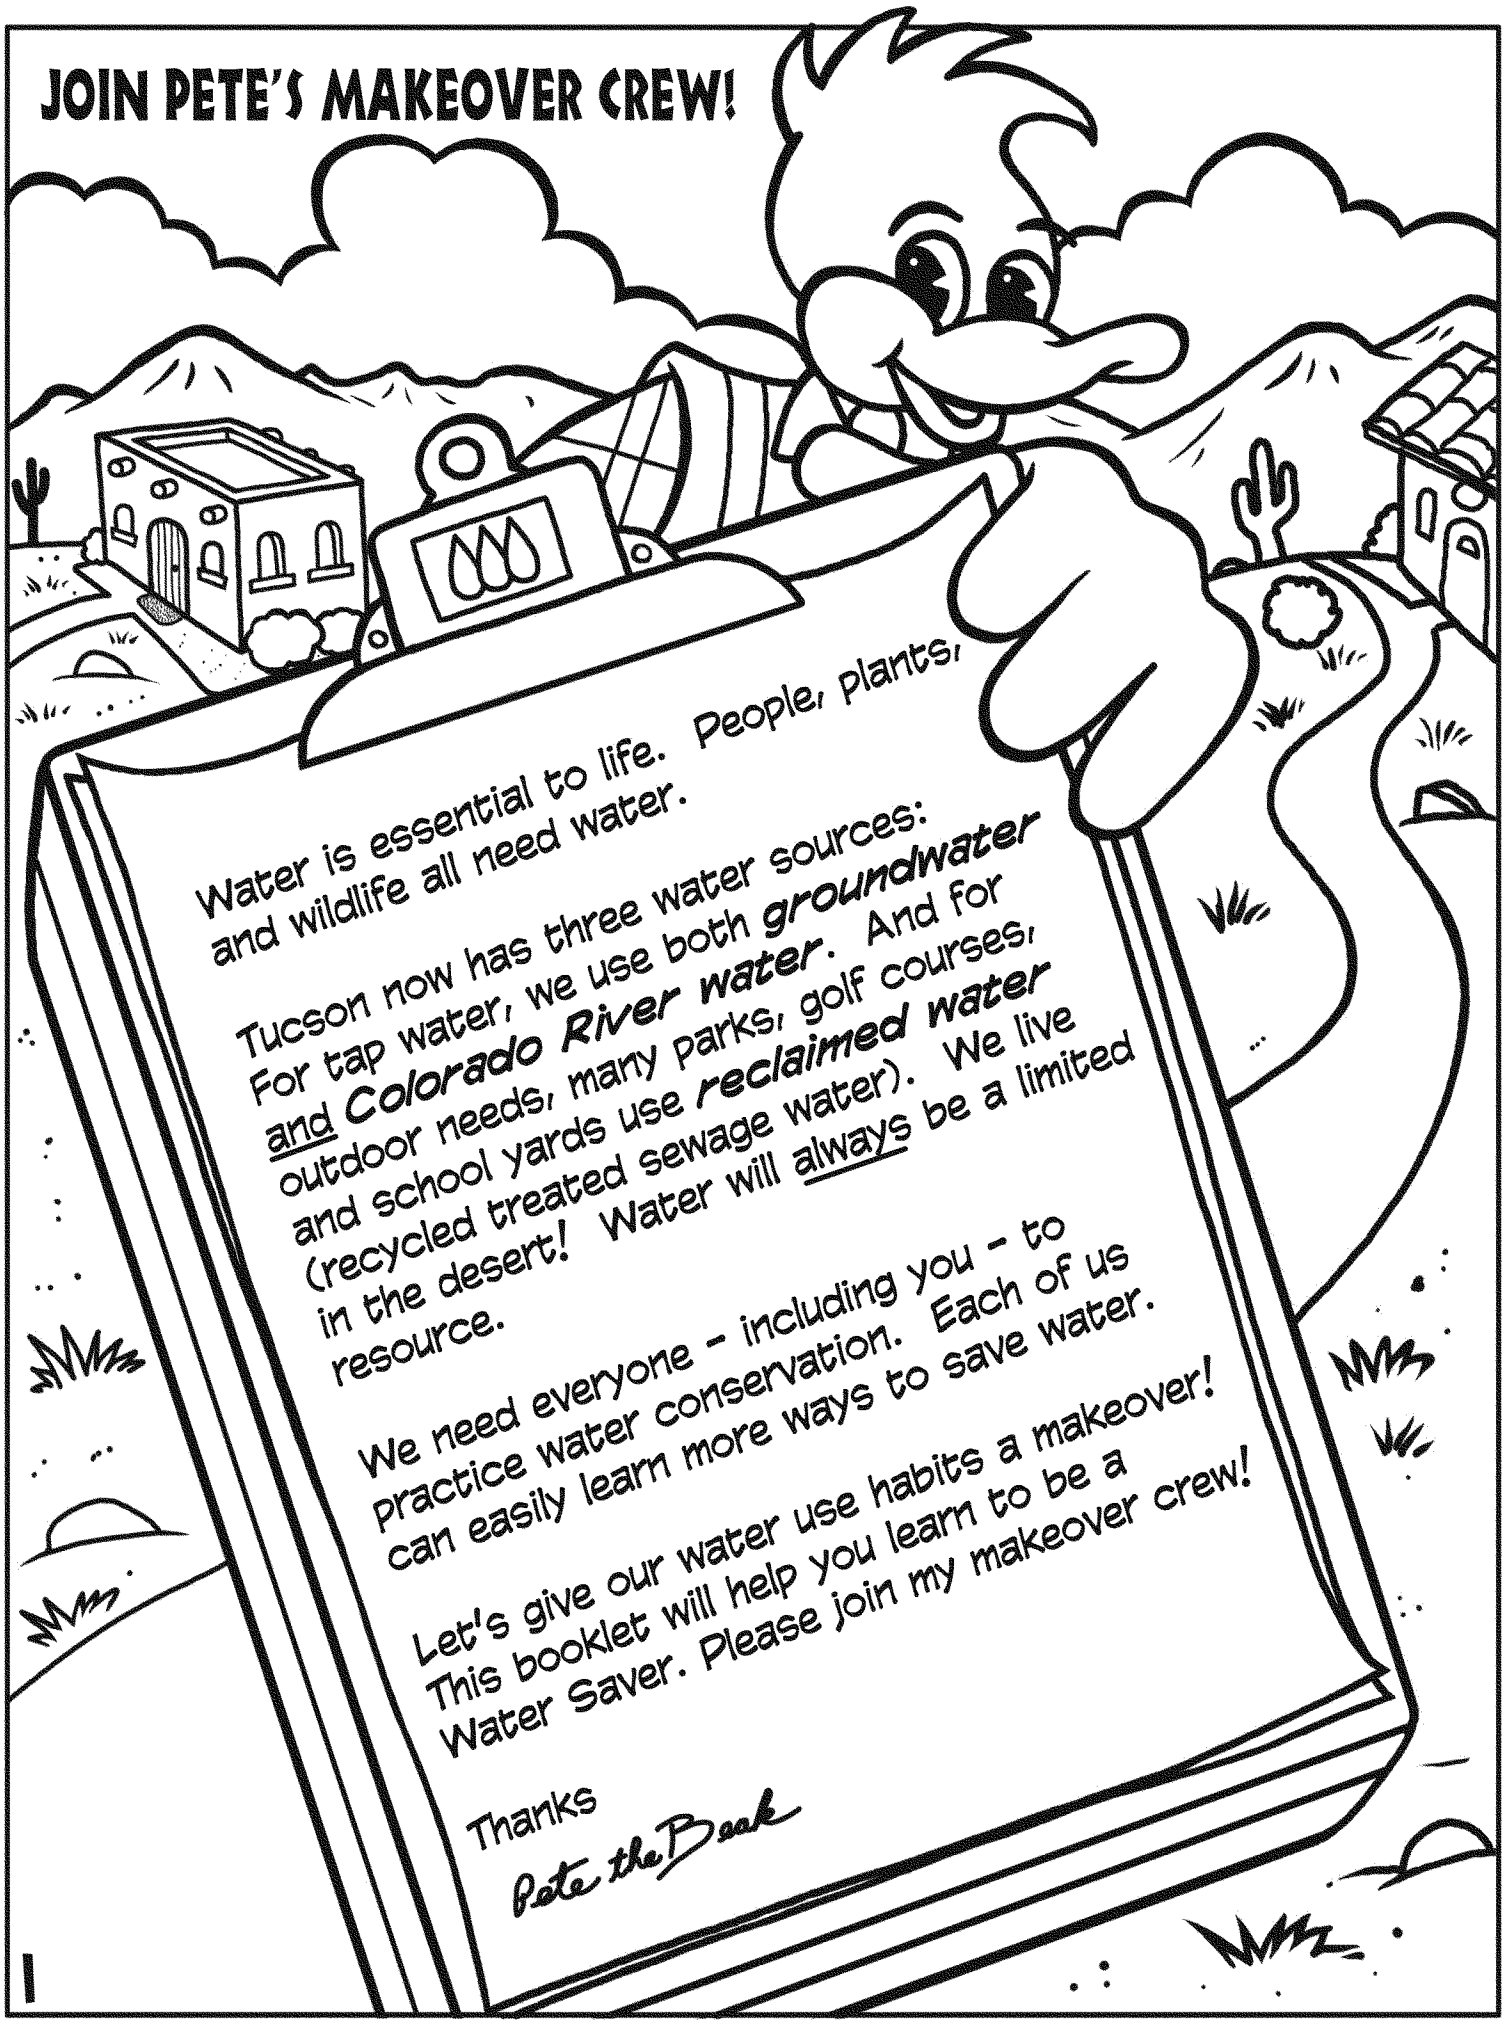
# JOIN PETE'S MAKEOVER CREW!



Water is essential to life. People, plants, and wildlife all need water.

Tucson now has three water sources: For tap water, we use both ***groundwater*** and ***Colorado River water***. And for outdoor needs, many parks, golf courses, and school yards use ***reclaimed water*** (recycled treated sewage water). We live in the desert! Water will always be a limited resource.

We need everyone - including you - to practice water conservation. Each of us can easily learn more ways to save water.

Let's give our water use habits a makeover! This booklet will help you learn to be a Water Saver. Please join my makeover crew!

Thanks

Pete the Beak
