Our Next Meeting Will Be Scheduled for September. Exact Dates will Follow!

All of our meetings are held at:

Ford Elementary School
8001 E Stella Rd, Tucson, AZ

FIRST NEIGHBORHOOD CLEANUP! ACTIVITY PLANNED

The Lakeside Park Neighborhood Association is planning its first “Neighborhood Cleanup!” activity. We plan to conduct many such activities throughout the year, where we come together to make our neighborhood a better, cleaner safer, place. Our first such activity will be protecting the new mural at the Ford Elementary School. The Neighborhood Association will be providing a sealant and labor to coat, protect, and preserve the beautiful mural marking our neighborhood elementary school. Stay tuned for more information and future Neighborhood Cleanup! Activities.

MEMBERSHIP DUES REQUEST!!

Beginning in January of every year, we ask that each household in the neighborhood association to provide \$10 for dues. These dues go to maintaining our safe neighborhood (through programs like Volunteers in Prevention), promote community activities (like the back-to-school bash and Neighborhood Cleanup!), while also providing support to our neighborhood schools. Dues may be paid at any meeting, or by mailing a check to our treasurer, Jan Hicks (3301 S. Tahoe Drive; Tucson, Arizona 85730). Thank you for your support....

SUMMER SWIMMING ADVICE!

Here are some tips on keeping your kids safe and still giving them the opportunity to make the most out of their swimming experience!

- 1.Enroll your kids in swimming lessons. Make sure they learn from a trained professional how to swim. A good swimming program will also teach them how to act if they find they are in an uncomfortable spot in the pool or at the beach. Teach your kids the right way to know water safety.
- 2.Never leave a child unattended. Accidents happen, but leaving a child unattended, even one that is a good swimmer, is an accident waiting to happen. Even if there is a lifeguard present, it's nearly impossible for him or her to keep an eye on everyone at the same time, and a swimming accident can happen in a split second.
- 3.Swim with your children. What a better way to keep an eye on them? It's going to be hot, so hop in and cool off with your kids!
- 4.No diving in shallow water. Generally speaking, there should be no diving in water that is less than 9 feet deep. Diving in head first into a shallow pool is dangerous and can cause severe injury or even death. Make sure your kids are aware of how deep the water is!
- 5.Make sure you lock the gates to the pool. Children can and will wander. If you have a pool at home, keep the gate locked to ensure your child doesn't wander in unexpectedly and fall into the pool. Keep an eye on your kids as they play outside around the pool area.
- 6.Look for a bright bathing suit! If you're in a popular swimming pool or beach, there are hundreds of kids wearing the latest, greatest bathing suit style. Be different, it'll be easier to spot your child amongst the others. Look for something bright or with an unusual pattern to make it easier to see your children if you decide to hang out on the beach.

It doesn't take much to ensure the safety of our children! These are simple steps but one that can help avoid an accident that every parent dreads. Keep your children safe this summer and have fun!
