

Workshops

Be prepared for drought-related water restrictions. Learn how your business can navigate the waters! Come to one or all of these workshops to learn about Tucson Water's new WaterSmart Business Program. A Technology Expo will take place at all workshops.

Water Issues & Your Business

October 1st, 2008 11am – 1 pm

Radisson Suites 6555 E. Speedway

Cost: FREE (Luncheon included)

Registration Required

Presenters from the University of Arizona, AZ Department of Water Resources and Tucson Water will discuss regional drought and water issues, what the state and city are doing, and how it affects your business. Learn more about the WaterSmart Business Program and Workshop Series.

How to Water Audit your Business*

October 22nd, 2008 8am – 12 pm

Radisson Suites 6555 E. Speedway

Cost: \$25 members/\$35 non-members

Stage 2 Drought Response requires that commercial facilities with 325 ccf or more usage per month to conduct water self-audits and develop a conservation plan. This hands-on workshop will prepare you to assess your water uses (by inventorying the hotel) and find your greatest water and money saving potential.

Creating a Water Budget*

October 22nd, 2008 1pm – 5 pm

Radisson Suites 6555 E. Speedway

Cost: \$25 members/\$35 non-members

You have a financial budget, right? Now all you need is a Water Budget! Discover how to create a water budget to better manage your water use, saving both money and time!

How to Keep your Cooling Tower

Water Efficient*

October 15th, 2008 8am – 12pm

Rio Nuevo Building, City of Tucson, 52 W. Congress

Cost: \$25 members/\$35 non-members

Learn from cooling tower specialists how to reduce your water use in cooling tower systems. Experience cutting edge technology and innovations in cooling tower efficiency and water reuse.

Irrigation System Efficiency: How to Save Money & Water with your Landscape *

October 29th, 2008 8am – 12pm

Williams Center Offices – 5210 E. Williams Circle

Cost: \$25 members/\$35 non-members

Explore the methods and equipment used to improve your irrigation system performance. Learn how to pre-audit your site. Case study examples of irrigation system improvements and payback periods will be shared.
