SF1 Tables

The Key field between all GIS layers and the tables is LOGRECNO.

All tables are located in the GIS Library at ...\\az\counties\pima\dbtables\census2010\sf1
(same location on the FTP server)

cen2010sf1_tables.gdb = File Geodatabase containing all SF1 tables.

dbfs = Directory containing dBASE versions of all SF1 tables.

Documentation is located in the GIS Library at ...\\az\counties\pima\dbtables\census2010\docs
(same location on the FTP server)

cen2010_pl94-171.pdf = Technical documentation for the redistricting data release.

cen2010_sf1.pdf = Technical documentation for the Summary File 1 data release.

cen2010_sf1_data_dictionary.pdf = Data dictionary from the SF1 technical documentation.

cen2010_sf1_field_cross_ref.xlsx = Data field name cross-reference.

Primary tables:

cen2010sf1_b = Blocks

cen2010sf1_g = Block Groups

cen2010sf1_t = Tracts

For these tables, the chosen fields were based on what we did for the 2000 census. Refer to cen2010_sf1_field_cross_ref.xlsx.

Source tables:

The table names and fields coincide with the SF1 data dictionary. Refer to cen2010_sf1_data_dictionary.pdf.
