

Dear Christina,

You and the City of Tucson are an amazing group of people. May I just thank you from the bottom of my heart, for the depth of help and support you and the City of Tucson provided our GOATS production while we were shooting in your fair city.

It seems you most seamlessly understood that we were a small business with sometimes very creative needs for which you were there every step of the way to provide insight, resources and associations that could help us achieve our production goals.

Now that's the way to run a Film Commission! I will always recommend Tucson as a resourceful destination location, regardless of genre or scope of the project.

Very truly yours,  
Catherine McCabe

PS - If I may ever be of assistance to you, for any reason, please do contact me!
