Re: Downtown Motor Apartments

Dear Ms. Loichinger:

As mentioned in today's consulting parties meeting, the City of Tucson received two objections to our adverse effect determination for the Downtown Motor Apartments project. In accordance with the regulations, I understand that we can request ACHP to review the objections and formulate an opinion concerning the adverse effect determination. Per this letter I am officially requesting ACHP to do so. I've attached the written objections and look forward to your response.

Sincerely,

Sally Stang, Director
Housing & Community Development Department
