Subject: Downtown Motor Hotel Petition

Ms. Stang,

We are including a link with this email of a petition that has been circulated in Armory Park and Barrio Libre [and the wider city] protesting the destruction of the Downtown Motor Hotel. In just a few days we have collected over 250 signatures and comments in support of saving and rehabilitating the existing building. The comments are telling as to public input and we ask that they ALL be included in the public record listed on the city website.

Please let us know if we need to print these comments and send them to your office in order for them to be included.

In your 106 review, please go back and seriously look at options that AVOID the destruction of this historic Joesler building. You have yet to do that on a serious level. You owe it to the public and to historic preservation.

Thank You,

Gary Patch

Darren Clark
