Subject: Save the historic downtown motor hotel

Please, listen to those who have lived downtown for decades, for a lifetime or those newcomers who moved here because of buildings just like the Downtown Motor Hotel. Please do not demolish this historic building. Have we not learned our lesson with the TCC and Barrio Viejo?

Instead, consider renovation and re-use. Look at the possibilities - see The Clifton boutique hotel just south. Look at 5-Points.

I support low-income and affordable housing. I believe there are other viable options. I support saving this historic building designed by a Tucson legend and will do so with my votes and money.

Thank you for your consideration.
