The City’s central long-term community development goal is to focus resources on community needs, particularly the comprehensive revitalization of distressed areas and areas with high levels of poverty. Assisting low-moderate income households throughout the City is a key community goal intended to ensure that neighborhoods not currently in distress do not become so.

Executive Summary

DRAFT FY 2017 Annual Action Plan and Amendments to the City of Tucson Five Year HUD Consolidated Plan 2015-2019 (FY 16-20)

Introduction

Each year the City of Tucson is required by the U.S. Department of Housing and Urban Development (HUD) to update the five-year Consolidated Plan and develop an annual implementation plan, or action plan. The five-year Consolidated Plan outlines the needs, priorities, goals and strategies for housing, support services, and community development programs to guide the City's investment of HUD entitlement funding. The Annual Action Plan establishes project specific allocations and serves as the local government's application to HUD for funding as outlined in the federal regulations for the following programs: The Community Development Block Grant (CDBG) program; the Home Investment Partnerships (HOME) program; the Emergency Solutions Grant (ESG) program; and the Housing Opportunities for People with AIDS (HOPWA) program.

Community Development Block Grant (CDBG) Program- 24 CFR Part 570*Code of Federal Regulations (CFR)

CDBG eligible activities include housing, public services, public facilities, neighborhood improvements, economic development and program administration. Over a 1, 2, or 3-year period, as selected by the grantee, not less than 70 percent of CDBG funds must be used for activities that benefit low- and moderate-income persons. In addition, each activity must meet one of the following national objectives for the program: benefit low- and moderate-income persons, prevention or elimination of slums or blight, or address community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community for which other funding is not available. ~hud.gov~

HOME Investment Partnership Program (HOME) - 24 CFR Part 92* Code of Federal Regulations (CFR)

The HOME Investment Partnerships Program (HOME) provides formula grants to States and localities that communities use - often in partnership with local nonprofit groups - to fund a wide range of activities including building, buying, and/or rehabilitating affordable housing for rent or home-ownership or providing direct rental assistance to low-income people. HOME is the largest Federal block grant to state and local governments designed exclusively to create affordable housing for low-income households. ~hud.gov~

In 1992 the City of Tucson and Pima County formed a HOME consortium and with this designation are required to coordinate on consolidated planning and reporting activities. The City of Tucson Department of Housing and Community Development (HCD) is the lead agency for the development of the Consolidated Plan and with respect to the implementation of the annual HOME Investment Partnership Program (HOME). The City of Tucson and Pima County Consolidated Plan is carried out through Annual Action Plans, which provide a concise summary of the actions, activities, and the specific federal and non-federal resources that will be used each year to address the priority needs and specific goals for HOME funding identified by the Consolidated Plan.

Emergency Solutions Grant (ESG) - 24 CFR Part 576* Code of Federal Regulations (CFR)

The ESG program provides funding to:

- Engage homeless individuals and families living on the street;
- Improve the number and quality of emergency shelters for homeless individuals and families;
- Help operate these shelters;
- Provide essential services to shelter residents;
- Rapidly re-house homeless individuals and families; and
- Prevent families and individuals from becoming homeless.

ESG funds may be used for five program components: street outreach, emergency shelter, homelessness prevention, rapid re-housing assistance, and HMIS; as well as administrative activities (up to 7.5% of a recipient's allocation can be used for administrative activities). ~hud.gov~

Housing for Persons with Aids (HOPWA)- 24 CFR Part 574* Code of Federal Regulations (CFR)

The Housing Opportunities for Persons with AIDS (HOPWA) program, managed by HUD's Office of HIV/AIDS Housing, was established to provide housing assistance and related supportive services for low-income persons living with HIV/AIDS and their families.

HOPWA funds may be used for a wide range of housing, social services, program planning, and development costs. These include, but are not limited to, the acquisition; rehabilitation; or new construction of housing units; costs for facility operations; rental assistance; and short-term payments to prevent homelessness. An essential component in providing housing assistance for this targeted special needs population is the coordination and delivery of support services. Consequently, HOPWA funds also may be used for services including (but not limited to) assessment and case management, substance abuse treatment, mental health treatment, nutritional services, job training and placement assistance, and assistance with daily living.~hud.gov~

Eligibility for the Choice Neighborhoods Program is based on a need to address distressed public housing. The Tucson House, a 408 unit high rise for elderly and/or disabled public housing residents, is in the defined area which encompasses 2.6 square miles.
