CITY'S FLEET SERVICES NAMED AS ONE OF TOP 100 BEST FLEETS

The City of Tucson's Fleet Services Division is ranked 14th in the latest list of The 100 Best Fleets in North America. The rankings by the 100 Best Fleets Program recognize and reward peak performing public sector fleet operations in North America. The Fleet Services Division operates the City's motor pool by providing maintenance and repair to police cruisers, garbage trucks, and other vehicles.

The City's Fleet Services Division was acknowledged for its operational efficiency, significant savings, and continuous improvement.

"Ranking 14th in The 100 Best Fleets is an achievement that couldn't be possible without the commitment and dedication of every single Fleet employee," said General Services Interim Director Joan Stauch. "This designation recognizes the excellence in overall program management, from leadership to execution of preventive maintenance and repairs."

The mission of the 100 Best Fleets program is to identify outstanding operations for others to emulate, provide recognition for the community the winning fleets serve, promote pride in the industry, and encourage more individuals to consider fleet operations as a career choice. The program also identifies and encourages ever-increasing levels of performance improvement with the fleet industry.

The 100 Best Fleets is sponsored by author and fleet consultant Tom C. Johnson. The awards were announced at the NAFA Fleet Management Association Institute and Expo and published in American City and County magazine. Visit <http://www.the100best.com/> to view the entire list of 2015 winners.
