CITY OF TUCSON FLEET NAMED TOP 100 BEST FLEETS IN THE NATION

Government Fleet Magazine has recognized the City of Tucson with the 100 Best Fleets Award for 2013. The award program recognizes and rewards peak performing public sector fleet operations in North America. The program also identifies and encourages ever-increasing levels of performance improvement within the fleet industry.

The purpose of the 100 Best Fleets program is to identify outstanding operations for others to emulate, provide recognition with the larger organization and the community that the winning fleets serve, promote pride in the industry, promote ever-increasing levels of productivity and operational effectiveness and encourage more individuals to consider fleet operations as a career choice.

The City of Tucson fleet was acknowledged for its operational efficiency, significant savings and increased fleet availability.

“The City of Tucson Fleet Services is a top performing fleet because we are focused on continuous improvement,” said Gary Lowe Fleet Services Administrator. “We strive to provide the best services to our customers by implementing staff and system enhancements, vehicle efficiency improvements, a strong customer service focus, fiscal and performance accountability, incorporating cutting edge technology and industry leading processes into our operations. We staff our division with experienced professionals and provide opportunities for all staff to be involved in making Fleet Services one of the best municipal fleets in the country.”

The awards program is sponsored by INVERS Mobility Solutions and Property Room. The top 20 fleets, including the No. 1 fleet, will be announced at the Government Fleet Expo & Conference in San Antonio, Texas, which is being held June 10, 2013 through June 12, 2013.
