Bridging the Past While Building A Sustainable Future
Land Use and Implementation Plan Scope
Land Use and Development Implementation Plan Project Goals

- Analyze properties within the ¼ mile focus area to best prepare them for the appropriate land use plan, zoning, and design.
- Identify subareas with unique characteristics and concerns.
- Collect and review input from stakeholders regarding their concerns, issues and priorities for development along the streetcar line.
- Incorporate stakeholders’ suggestions and best planning and urban design practices in the preparation of an innovative and solution-oriented land use approach that leads directly to legislative amendments (e.g. land use plan amendments, rezoning and land use code amendments) and revised procedures so that the Plan’s recommendation can influence development proposals along the streetcar line and allow high-quality proposed development to occur in an expeditious manner.
- Identify areas along the streetcar line where higher density/intensity mixed-use development is appropriate.
- Prepare recommended policies, standards and documents for the required legislative process to seek development approval.
- Prepare planning area supplemental strategies on streetscapes, parking and affordable housing.
- Identify financing mechanisms to implement the land use plan.

We have been listening…

• Had nearly 50 meetings
• Talked to more than 650 people
And here is what we heard:
“Our community is supportive of higher intensity land uses along the streetcar corridor............
.....as long as “it is done right.”
Doing it Right…

Guiding Principles
Character/Historic Preservation/Heritage and Culture

Our 4000-year-old living and evolving heritage, culture, and art - in this place - should be the foundation for all decisions that we make to improve our community.
Streetscapes

The public realm of our urban community should be our living streets. That space needs to be designed to be functional for human activity. It must be beautiful, consistently high-quality, and well-maintained.
Parking and Mode Shift

New development in the Streetcar study area will tend to increase auto traffic and increase the demand for parking. A new approach to the car should use incentives and disincentives to reduce traffic, should make sure that we have adequate parking where needed, and, at the same time, should support a greater range of real choices of how to get around.
Mixed-Use

As we intensify land uses along the Streetcar route, each new project should strive to contribute to a healthy and carefully thought-out *mix of uses* in each character area.
Pedestrian Connectivity

While the Streetcar investment is an enormous asset to our community, it will only work if people can actually walk to it. Our discontinuous system must become continuous, attractive, comfortable, safe, shaded, and well-lit.
Public Engagement/Public Process

Development should be a transparent process. For the best result, all stakeholders should have the opportunity to participate.
In Tucson, traveling by bicycle is a viable transportation choice for the young and the brave. To make cycling appeal to more riders, we will need a continuous network of safe routes, fewer conflicts, and abundant, well-located bicycle parking.
Housing

In all character areas, there should be a healthy mix of housing by type, density, age-demographic, and income. To avoid gentrification, work-force housing should be protected and new work-force housing should be actively promoted.
Economic Development

The Streetcar should be a major economic stimulus for our community. Arts, culture, and a sense of place will be at the heart of that strategy. The goal should be better, higher-paying work for our families and our youth with a focus on home-grown, locally-owned enterprises.
Other Important Topics

- Open Space
- Natural Resources
- Quality and Authenticity of Development
- Quality of Life
Streetcar Corridor Neighborhoods
Origins Gateway (Western Terminus)

- The area that is now Menlo Park and Barrio Kroeger has been occupied continuously for **4,000 years** making it the oldest continuously-inhabited neighborhood in the US. This area *anchors the Streetcar*.
- It is a **vibrant** activity center filled with *opportunity*.
- It has a **Heritage Park**, offering a window into Tucson’s past.
- It has a network of quality **urban and rural open spaces**.
- It is a **fiesta center**, hosting regional historic and cultural celebrations.
- It has a home-grown authentic **public mercado**.
- It is a center for **ecology, equestrian activity**, and **bicyclists**.
- It includes a **variety of housing types** affordable to all income ranges.
- It provides access to **quality employment** and retail services.
- It is respectful of, protects, and strengthens **fragile adjacent neighborhoods** and the cultural identity of the Tucson Origin’s area.
- Development is sensitive to areas **demographics** (70% Hispanic) and **history**.
Origins Gateway (Western Terminus)
Origins Gateway (Western Terminus)
Downtown Cultural/Convention District

- Signature theaters and meeting spaces are all within steps of vibrant hotels, commerce, shopping and entertainment.

- It is supported by mixed-use development offering a variety of housing opportunities, retail, restaurants, and cafes.

- Existing mid-century modern buildings, large open spaces, landscape features, and streetscapes are honored and well-maintained.

- New development is respectful of, provides massing and height transitions to, the historic barrios to the south.

- Parking in the convention area is compacted in structures, freeing land for the development of a Cultural and Convention destination.

- Walking promenades, bicycle routes and living streets provide connectivity to adjacent districts.

- High-quality contemporary development is sensitive to adjacent historic neighborhoods.

- Design derives from Sonoran architectural elements, themes, and principles.
Downtown Cultural Convention District
Downtown Central Business District

- A vibrant district with **expanded employment and commerce**.
- It also includes **thriving cultural institutions**: the Tucson Museum of Art, the Museum of Contemporary Art, the Children’s Museum, the Historic Fox Theater, the Temple of Music and Art, the Scottish Rite Temple, and El Centro Cultural de las Americas.
- Vacant and under-utilized parcels are infilled with high-quality, high-density **mixed-use development**, with **active** ground-floor and office/residential above.
- A well-connected **public realm** offers a shaded walkable environment.
- Living streets include **safe bicycle** routes and well-controlled automobile traffic.
- Development at the edges is **sensitive and respectful** to surrounding historic districts and provides appropriate transitions.
Downtown Entertainment District

- This Activity Center includes thriving cultural, gastronomic, commercial and entertainment activities located in historic landmarks.

- It supports mixed-use opportunities at different scales.

- **Historic Warehouse Art District** includes lofts, live-work spaces and mixed-uses. Emerging artists find affordable living, gallery and studio/work space.

- There is **walkable connectivity** to 4th Avenue, the Downtown Central Business District, Armory Park, and the Historic Warehouse Arts District.

- The **streetscape** is developed and coordinated. It has wide sidewalks, a vibrant public realm, and well-maintained shading landscape.

- Through partnership efforts, the **Ronstadt Transit Center** is now a mixed-use, high-quality, safe, efficient, and vibrant hub of multi-modal transit.

- **New housing** serves a variety of ages and income levels. The design and massing at the edges respects adjoining neighborhoods.

- Parking is controlled with **no negative impact** on adjacent residents.

- There is a plentiful supply of **bicycle parking**.
Downtown Entertainment District
Fourth Avenue Business District

- This is a **thriving business** district offering opportunities for high-quality mixed-use activity nodes, infill development and redevelopment.

- The **Warehouse Triangle** develops as a high-rise, high-intensity district with mixed uses, an arts focus, varied building massing, and quality streetscapes.

- Historic 4\textsuperscript{th} Avenue itself is protected from **inappropriately-scaled development**. New development enhances the area’s character. It retains a strong pedestrian scale, safe bicycle access/parking, and a rich public realm.

- **Locally-owned** retail and services predominate.

- A **central parking** structure to the west serves this area.

- The **Iron Horse** historic neighborhood is protected from poorly scaled and inappropriate development.

- 6\textsuperscript{th} Street @ 4\textsuperscript{th} Avenue is a moderately-scaled **landmark activity node**.

- 4\textsuperscript{th} Avenue north of 6\textsuperscript{th} Street continues as a vibrant commercial district, but **respectful of its West University** neighbor.

- **Excess surface parking** is replaced with neighborhood-compatible development.
University Boulevard

- The Historic West University Neighborhood remains protected by its status as an **Historic Preservation Zone** and its listing on the National Register of Historic Places.

- Infill development in the few opportunities is **compatible** in density, character, scale, form, use and height with adjacent development.

- **Streetscape improvements** throughout West University provide comfortable, safe, shaded and green connectivity for pedestrians throughout the area and to the streetcar line.

- Cut-through **traffic and intrusive parking** are controlled.
Main Gate District

- Main Gate builds out as a vibrant area offering residential, retail, employment, hospitality and convention services in a university campus environment.

- New development within this area is high-quality; walkable; sensitive to adjacent neighborhoods; offers a strong definition of the public realm, active living streets, plazas and courtyards, in an inviting campus atmosphere.

- Auto ownership by student residents is minimal; the streetcar, walking, biking, car-share are incentivized and are the preferred modal choices.

- Historic residential structures are protected and maintained with residential or adaptive re-uses.
Eastern Terminus – Innovation Gateway

• New development north and south of Speedway and Campbell serves as the UA **eastern gateway**, providing a high quality mixed-use, place-making urban environment.

• That gateway **serves** adjacent neighborhoods, the University of Arizona, the University of Arizona Health Network, and the business community.

• This area provides **access to different modal choices** - walking, biking, transit and the streetcar. Adjacent neighborhoods have easy, safe access.

• It has a network of **urban open space** - courtyards and plazas - and a hierarchy of shaded pedestrian streets with housing, medical, retail and service.

• Urban plazas, courtyards, pocket parks connect to the University of Arizona **public space network** and to adjacent neighborhoods.

• This area features **highest-quality design**, incorporating sustainable features such as green roofs and solar energy.

• **Structured parking** is sufficient for the development within this area.

• **Bicycle park-and-ride corrals** provide Streetcar connectivity.
Implementing the Vision
Implementing the Vision: Design Standards, Partnerships and Funding Strategies
Importance of Streetscape Standards

- **A high quality continuous streetscape** is critical to the success of the Streetcar.
- The streetcar construction includes the streetcar infrastructure **from curb to curb**; does not include the streetscape.
- **The public realm** includes the sidewalk areas, the face of buildings and even the first floor inside of buildings.

Downtown Entertainment District
Successful Public Realm Principles

• **Streets and buildings work together** to form public rooms

• **Positively affect the character of the public realm** through building stepbacks and different massing approaches

• **Ensure transparency of the façade**, and active uses on the ground floor

*Getting all of these things right, and working together, is critical to the success of the streetcar*
• **City Partnerships and Funding Mechanisms for Streetscape**

  - City can pay for *some improvements* for the corridor, but nothing is currently funded.

  - City can facilitate formation of improvement districts to **share in the costs and benefits**.

  - **Potential local partnerships** for local improvements—merchant associations and institutions.

  - City can **use new development to help pay for improvements**.
Streetscape Elements that Apply to the Corridor

• Street lights
• Catenary Poles
• Curbs
• ADA ramps
• Crosswalks
• Street trees

Streetscape Elements that Apply to Character Areas

• Tree grates
• Shading
• Lighting
• Street furniture
• Paving
• Wayfinding/ Signage

Streetscape standards would apply Corridor wide and at the Character Area scale. Minimum standards for three zones: Frontage Zone, Clear Zone, Furnishings Zone.
Implementing a Streetcar Parking Program

ParkWise approach to parking has been evolving. Principles of current approach:

- **Park once** and use the streetcar to extend your walk
- Locate parking so **traffic has the least impact** on neighborhoods
- **Limit and reduce** surface parking
- **Integrate structured parking** into developments (behind retail and stacked with other uses), and **facilitate public-private partnerships**
- **Disperse parking of all kinds** along the streetcar
- Facilitate **shared parking**
- Inventory parking supply and **manage it**, including managing parking costs
Implementing a Cultural Program for the Streetcar

• Implement a streetcar line-wide cultural access program

• An application for a handheld device that catalogues and informs about cultural activities within ½ mile of the streetcar

• Partner through Tucson Pima Arts Council which has an NEA Grant
Next Steps
Design Team Next Steps

- Document the Charrette and make it available online at: www.tucsonaz.gov/streetcar-planning
- Assemble an eclectic Development Strategy and involve stakeholders through four more public meetings
- Roll out implementation over eight months
  - Downtown Links District strategy
  - Streetscape strategy
  - Parking strategy
Thank you for being our Partners in Success

• Tucson Community and Neighborhood Associations
• Mayor and City Council
