

Good morning Frank,

4-20-15

After review of the HUB II Minor Changes submitted by Rory Juneman on behalf of the developer, I find the changes shown on the attachment dated 4-8-15 to be acceptable in form. Particularly in consideration of MGD DP Guideline items 1 and 2:

A change proposal should contain one or more of the following rationales from the applicant stating that it is 1) equivalent as is practical to the approved features, 2) an improvement to the approved features...

I further recommend approval of said changes and their incorporation into the approved Design Package.

Regards,

Rick Gonzalez, Architect
