Hi Scott,

Please add C-1 and C-2 to the Land Uses where Airport Authority is permitted. The TAA has property north of Valencia Rd and also west of Old Nogales Highway which would benefit from being included as a Permitted Use under the Airport Authority Land Use. This would enable the potential development of a future aeronautical use, centralized people mover station, or the development of a future travel plaza to support the Tucson International Airport.

Thank you,

Scott Robidoux
