RE: Meeting of 16 Sept. 2020; Agenda Item No. 2, "C8-19-03, Sign Code Revisions

Dear Planning Commission Members,

I have just become aware of an issue before you that would eliminate the sunset date for electronic billboards and possibly other electronic signs.
In my opinion, electronic billboards/signs should not exist at all. They are unsightly; they are a safety hazard, especially when someone is driving; and they are completely unnecessary.

So, I'm not sure exactly what is on your agenda, but I would urge you, if at all possible, **to recommend to the Mayor and Council that electronic signs be eliminated.**
At the very least, your recommendation should include a sunset date of no more than one year.

Thank you for your consideration,

Gayle Hartmann
