Subject: Re: Planning Commission Public Hearing to Discuss Urban Agriculture Ordinance Sunset Date

Thank you Mr. Bursuck for your notice on today's Agriculture Ordinance meeting.

As it looks on your files gardening and the opportunity of having chickens for fresh eggs at home is working with success.

It is interesting that the violation complaint is the same for two years at 21, similar to the past, and down to 3 for this year. Has a study taken place on this great change?

Being a native of Tucson and around farm animals all of my life, I enjoy very much that others have this same opportunity. Their is Facebook post on both gardening and rising chicken that is so motivating to read people helping people with this interest.

But, would like to see this encouragement grow even stronger. It was said by our City of Tucson that the last remaining ranches along the Santa Cruz River and also Mission Road, would be acknowledged as being historical as we are known in our "Old Pueblo."

It has been two years now, and there hasn't been any notice of this historic moment.

Maybe it is best to leave these ranches alone if they are not going to be appreciated. But, I thought I would ask.

Muchas Gracias,

Josefina Cardenas

Greetings,

You are receiving this email as you have previously expressed interest in the Urban Agriculture Text Amendment that was passed by Mayor and Council on December 8, 2015. The ordinance is currently set to expire on January 8, 2018. The Planning Commission will be holding a public hearing on October 11, 2017, to discuss weather to remove the sunset date, extend the sunset date, or let the ordinance expire. That meeting will be held at the Mayor and Council Chambers at 6PM. The materials from the study session are located on the following page: <https://www.tucsonaz.gov/pdsd/planning-commission>. As we move closer to the public hearing date, additional materials will also be posted here.

If you have any questions, feel free to email me or give me a call at 837-4984.

Thank you,

Dan Bursuck
