Pima County Food Alliance

Recipient: City of Tucson Planning Commission & City Council

Letter: Greetings,

Urban agriculture is already happening on a wide scale in our city, and we applaud the City in attempting to address this reality in a productive way by updating the zoning code.

We support an update to the code that:

Complies with Plan Tucson's vision for food production and food-based economic development opportunities;

Recognizes and normalizes the fact that urban agriculture is already happening on a wide scale and has created no major nuisances;

Recognizes that urban agriculture is not just a form of self-sustenance, but rather, at its best, is a tool to ensure a healthy food supply for all;

Allows for animal husbandry that is scale-appropriate (e.g., is tied to lot size), while ensuring animal rights and neighbor's rights through proper enforcement of nuisance, noise, and animal protection ordinances;

Seeks to give a number of minimum rights to engage in urban agriculture outright (e.g. growing food in the front yard, or having a certain number of chickens);

In appropriate instances, allows would-be urban farmers to expand beyond the parameters of the code based on a permission-based system from relevant stakeholders (e.g. contacting their neighbors to increase from 24 to 36 chickens);

Allows exchange of food in both informal and formal ways (e.g. over the fence sales to neighbors AND expansion of neighborhood farm stands and farmers' markets).

We understand that this is a long-standing effort, which has included participation from citizen committees, the University of Arizona's College of Public Health, the University of Arizona's Cooperative Extension, the Community Food Bank, the Pima County Health Department, and local urban agriculture experts and advocates. We applaud the City and the Planning Department for their engagement with the community for their commitment to producing a strong proposal.

After many years of work on this, it is the right time for the City of Tucson to codify these changes. Please support and pass the proposed Urban Agricultural Zoning Amendments.

Nick Henry	Tucson, AZ	2015-06-13	I support urban agriculture in Tucson!
Heidi Pustelniak	Tucson, AZ	2015-07-15	Last year (2014) I was made to get rid of my chickens that I had raised for eggs since 2008. None of my neighbors complained, it was the HOA of the condos, across an easement from us, though we were never able to confirm who complained. I was so sad, and upset the city even made me dismantle my coop, which I had put a lot of work into building and it was an Award Winning Coop! http://www.backyardchickens.com/a/glenn-cottage-eggery I dismantled it carefully, since I hoped the city would change the zoning codes.
Deanna Lee	Tucson, AZ	2015-07-15	Times have changed and growing food and animals is something that is and will be vital in the coming years. Done humanily and ethically this should be allowed. The freedom to live our lives without undue government intrusion is an American right.
Merrill Eisenberg	Tucson, AZ	2015-07-15	I care about my community!
Judy Dairy	Export, PA	2015-07-15	I BELIEVE THAT SOMEONE SHOULD BE ABLE TO DO AS THEY PLEASE WITH THEIR OWN PROPERTY AS LONG AS IT IS WELL KEPT AND CLEAN..
Pamela Morse	Tucson, AZ	2015-07-15	It improves the quality of the city to have urban agriculture.
Michelle Brogdon	Surprise, AZ	2015-07-15	I am signing this to support a friend who had chickens and they weren't bothering anyone. She and others should be able to have chickens if they want to.
Cecil Rinker	Tucson, AZ	2015-07-15	I believe that urban agriculture is very good for our community.
Norma Dickey	Tucson, AZ	2015-07-16	We should be allowed to grow our own food and have our own chicken and eggs. We are allowed in the county so the city folks should have the same rights.
Catherine Harris	Tucson, AZ	2015-07-16	I would like my neighbors to be able to raise their chickens as I miss being able to buy my eggs from them! More and more folks are into urban agriculture and I think we should support that.
Carolinda Brooks	Sun City Center, FL	2015-07-16	Some well cared for hens are a big help with eggs (and such wonderful fresh eggs!), help eliminating table scraps from the landfill, and generally a joy to keep.
Dawn O. Foster-Jacobson	Tucson, AZ	2015-07-16	If animals and birds are kept clean we should be allowed to keep them.
Stephanie Fries	Tucson, AZ	2015-07-16	Do the right thing.
Pam Stewart	Tucson, AZ	2015-07-16	I support an update to the code that will allow animal husbandry in the urban setting with reasonable limits placed on the numbers of animals allowed based on lot size with increases in numbers over the allowed limits to be granted when approved by any neighbors who would be affected. I also support the exchange of food in formal and informal ways. We all need to recognize that urban agriculture is one mean to the availability of healthy food for everyone. Since the county allows for all of this, it is time for the city to do likewise. Chickens love table scraps and turn them into wonderful fresh eggs reducing the amount of food scraps going to the landfill and their waste helps make wonderful compost.

Marilyn Saul	Tucson, AZ	2015-07-16	We all need to get back to sustainability. Urban Ag is the future and those who are frightened by it simply need to have a nice fried egg (home laid) sandwich and get over it. Please lighten up the ordinances and allow us to subsist on our property.

Some people want to be sure they have a safe, stable food supply, no matter what else is going on in the economy. I own this property and should be able to grow/raise my own food on it. Please lighten up the ordinances and allow us to subsist on our property.

Connie McClintock	Tucson, AZ	2015-07-22	I think that people should have the right to grow food on their property, and small livestock, provided they keep the areas clean, and don't infringe on the neighbor's rights. Animals will make noise, but chickens are no different that some of the wild birds in the city, and goats aren't worse than dogs. Mini-farming is good for the environment, too, and a great way for neighbors to get acquainted.
Shawn Castillo	Tucson, AZ	2015-07-22	Because I would like to keep a rooster in my community
Emily Palmer	Tucson, AZ	2015-07-22	I have a strong desire to be able to raise my own eggs legally, despite living in a suburban area. I want both my and my neighbors' rights protected.

Cristi Kath	Tucson, AZ	2015-07-23	Tucsonans have been forced to get rid of their chickens if one person complains. They have money and love invested in their effort to provide healthier eggs for their families. With these amendments they will have rights to protect their investment.
brittany lockwood	Tucson, AZ	2015-07-23	I have chickens of my own as do many of our friends and they are amazing actually. They have individual personalities. They make a great pet while providing nourishment for my family. They also eat insects in our yard and help fertilize our grass. They are not disgusting as people who have never owned chickens believe. In fact, the stray cats in my neighborhood leave bigger messes in my yard. My chickens coop is changed once every few months. When you open the door, there is no odor and they are easy to care for. They truly are a multipurpose pet. My neighbor tells me how much she loves hearing my hens talking and that it makes her feel more at home. There are truly numerous benefits to urban agriculture. It doesn't surprise me that more people are doing it.
Sandra Duarte	Tucson, AZ	2015-07-23	In these difficult economic times, it is important families can feed themselves. Food is universal & brings people together. Neighborhood farmer's markets create stronger bonds through neighbors helping neighbors. Urban agriculture allows concerned citizens to know where their food sources come from. Please approve this much needed change in our city ordinances.
Dale Tersey	Tucson, AZ	2015-07-23	Urban Agriculture, whether the back yard garden or all the way up to an urban farm is part of what makes up Tucson. I have to see more water restrictions so the developers can continue to build more high-priced and high-density California style housing.
Adelle McNiece	Tucson, AZ	2015-07-23	I like having chickens and fresh eggs.

We see rampant food waste especially from edible trees so we take action and reduce the stream to landfills by 50 tons while feeding refugee families and well beyond through food banks, pantries, kitchens and many other organizations working with Tucson's Made poor. We want the support of the people and the Mayor and council for good zoning amendments.
Conner Forche	Tucson, AZ	2015-08-16	Chickens and vegetable gardens are a great addition to most average sized yards in Tucson. I hope that the urban agriculture movement continues to grow and that we start to see a decrease in adult/childhood obesity, diabetes , and heart disease. With even celebrities building coops in their multi-million dollar neighborhoods, I don't see why we need to stigmatize chickens as being associated with poor and dirty conditions. They are amazing animals. I'm glad that the younger generations have figured out that the way we have lived for the past 50 years has only led to many health problems associated with poor eating habits and lack of exercise. Thank you for recognizing the need to amend the current zoning code. Here's to a healthier future.

Juan Enriquez	Tucson, AZ	2015-08-28	I like salad. With steak.
JULIE CASTELLA	Tucson, AZ	2015-08-28	I may live outside the city limits, but as Tucson talks about annexing it may affect others like me. Being able to provide healthy foods for my family no matter what is important to me and many others living here.
Deirdre Brosnihan	Tucson, AZ	2015-08-28	Food security should include the right to raise your own. I want to be able to raise chickens, whose lives are filled with love and good food, in my backyard in urban Tucson. Modern day victory gardening!
Wanda Poindexter	Tucson, AZ	2015-08-30	It is important that people have the ability to raise their own food for good nutrition & food security. It enriches our community.
HOLLY Bryant	Tucson, AZ	2015-08-31	I believe in Urban Ag!
Alan Bliven	Tucson, AZ	2015-09-02	It's the right thing to do!!!

Rebel Harjo	Tucson, AZ	2015-09-03	We need our chickens, and the right to supplement our food source with urban agriculture. It's time the people who are against urban agriculture step back and take a fresh look at how having chickens, gardens, and small livestock can improve the quality of life in Tucson! Yay! for those people who recognize what a valuable contribution urban farming brings to us all!
Maribeth Slebodnik	Tucson, AZ	2015-09-04	I want to garden and have small livestock when I buy a home in Tucson.
MICHAELEEN MCNERNEY	Tucson, AZ	2015-09-04	Every citizen should be encouraged to grow and/or raise some or all of their own food!
cynthia flores	tucson, AZ	2015-09-04	Since volunteering at local community farm, I have seen so many wonderful foods our climate can grow. It is especially rewarding to see the community take pride in the food they grow. Most people with lower incomes cannot afford the cost of fresh fruit & vegetables without it taking a bite out of their funds, let alone organic produce. To prohibit an individual or family from providing fresh food for themselves, is just nonsense & inhumane. And yes, these families who do produce their own foods are some of the most giving & sharing people I have ever met.
Cristina Williams	Tucson, AZ	2015-09-07	Urban ag is where it's at!
patricia dewey	tucson, AZ	2015-09-09	I FEEL GARDENING OURSELVES IS ONE OF THE BEST WAYS TO CONTROL OUR HEALTH STATUS AND WHAT WE ARE EATING
Mark Cruce	Tucson, AZ	2015-09-09	I would like the 50 foot rule abolished
Alan Rupp	Tucson, AZ	2015-09-09	I want to keep chickens.
S W	Tucson, AZ	2015-09-10	I'm signing because I support urban agriculture...I depend on food for my source of physical energy.
tania rhodes	Tucson, AZ	2015-09-10	I support urban agriculture and the proposed Urban Agricultural Zoning Amendments
Rob Kulakofsky	Tucson, AZ	2015-09-10	I represented neighborhood issues on the Planning Department's adhoc committee that discussed updates the urban ag zoning amendments. I believe neighborhood concerns have been met by the proposed changes. The same people who asked me to represent neighborhood issues for them are now against the proposal. However, I believe neighborhood concerns have been fully addressed in this proposal. Unfortunately, there are people who seem to be happiest when they are spreading fear and keeping our community from becoming a better place to live. There is nothing more community building than a neighbor knocking on your door to give you an armful of eggs, goat milk and produce that came from their yard. This is the best way to keep Tucson sustainable, happy and resilient into the future.
T.J. Gorup	Camp Verde, AZ	2015-09-11	I now live in Tucson and support those who wish to grow healthy, Non-GMO food in their yards or keep chickens in a humane way - no roosters.
Megan Mills-Novoa	St. Louis Park, Macao	2015-09-11	I am signing because I believe that supporting urban agriculture in Tucson is an integral part of improving food security in our community.
Victoria Stefani	Tucson, AZ	2015-09-12	Independence, self-reliance, self-sustenance, and reliably healthy food are important to our community on every level, for physical, psychological, financial health and well-being.
Jan Williams	Moline, IL	2015-09-12	I'm currently shopping for a house in Tucson and I hope this measure passes!
Ieshea Altrock	tucson, AZ	2015-09-12	I think we need better laws and because we should be able to have gardens and "farm" animals to raise if we can afford to

Chris Donovan	Tucson, AZ	2015-09-12	I'm signing because we should be allowed to grow our own healthy food & maintain a few chickens for their eggs.
Aimee Cronenberg	TUCSON, AZ	2015-09-12	I'm signing because I support urban agriculture!
David Cohn	Tucson, AZ	2015-09-12	It will be good for EVERYONE! :)
Kathleen DeBoer	Washington, DC	2015-09-12	I want to keep a few chickens and grow veggies in my backyard
Jef Shockley	Tucson, AZ	2015-09-12	This is important and needs to be passed...
Amelia Reyes-Crozier	Tucson, AZ	2015-09-12	I grew up in Tucson across the street from the UofA, which is now the parking lot next to the 7-11. We made our backyard a huge garden full of strawberries, bell peppers, okra, squash, tomatoes, eggplant, and cucumbers, etc. It was the normal "thing" to do.
dan johnson	englewood, CO	2015-09-12	I have a small place in Tucson and would be delighted to see more small agriculture in the neighborhood. People need to see and know where food comes from, and reduce the impact of transporting food hundreds of miles when it could be coming from their own neighborhood.
CM Peterson	Tucson, AZ	2015-09-12	I'm the neighborhood HOA president and I have chickens and believe in the need of urban farming for the good it does on many levels
Cynthia Christiansen	Tucson, AZ	2015-09-12	This will help in our community to encourage people to learn more of growing healthy food, and any plants grown now will help combat the greenhouse gasses which threatens our race.
Bambi Corso	Tucson, AZ	2015-09-12	It's time
Charlene Mendoza	Tucson, AZ	2015-09-12	Urban gardening is a great way to engage my children and students in learning about sustainability, nurturing, responsibility and we get great, fresh food as a bonus.
Nikole London	Tucson, AZ	2015-09-12	I want chickens
Donna Lee Joyner	Tucson, AZ	2015-09-12	I believe we should be able to keep a few chickens or ducks or goats or whatever small animals we can safely and humanely house and care for so that we can receive enough eggs or goats milk or whatever in order to provide a safer, healthier food supply for our families.
Richard Arzdorf	Tucson, AZ	2015-09-12	We are farmers and permaculturists. This needs to happen everywhere on earth.
Amanda Barth	Phoenix, AZ	2015-09-12	I believe in growing our own food, keeping people capable of caring for themselves and passing on this knowledge to our nwxt generations
barbara wise	tucson, AZ	2015-09-12	Urban farmers with gardens and chickens and goats act as a stabilizing factor in the city limits .
barbara padilla	tucson, AZ	2015-09-13	Urban farming gives Tucson fresher healthier options than the packaged processed kind
Julie Krenzke	Tucson, AZ	2015-09-13	I want chickens one day, and i want my friends who do have them to keep theirs.
Patrick Holt	Tucson, AZ	2015-09-13	Urban chickens are cool.
Donene Hurst	Tucson, AZ	2015-09-13	I think it's important for people to be in control of their food sources and for children to be educated in some form of agriculture and work ethic. The bottom line is health, education and responsible citizenship.
Mary Jane Schumacher	Tucson, AZ	2015-09-13	I am supporting this movement because it is every person's right to grow their own food.
Pamela Lloyd	Tucson, AZ	2015-09-13	I believe that growing food at home benefits everyone.

Zoraida Miranda	Tucson, AZ	2015-09-13	I want to teach my children about the cycle of life and good nutrition in my home.
Suzan Seay	Tucson, AZ	2015-09-14	Signing because it's the right thing to do for a community that cares about its food, health, and education.
Hannah Clark	Tucson, AZ	2015-09-14	We need to be able to be more self reliant, not so dependent on foods transported by trucks from hundreds of miles away.
David Ward	Tucson, AZ	2015-09-14	I'm signing because I want our laws to work for us, not against us. This measure will validate the reality that is already occurring, and empower our community to take ownership over our local food system.
Joshua Clark	Tucson, AZ	2015-09-15	I keep chickens and bees and garden in my backyard in the center of the city!
katie Sevy	Tucson, AZ	2015-09-15	I love urban farming and horticulture.
Tamara Christie	Tucson, AZ	2015-09-15	It's really not hurting anything
Amy Swanbeck	Marana, AZ	2015-09-15	I'm signing because we need more locally grown, Non GMO food.
Jolene Hardy	Tucson, AZ	2015-09-15	I believe in urban farming and the good it brings to our communities.
Robin Schuett-hames	Portland, OR	2015-09-15	We need to become more food self sufficient!
Martha Bergner	Tucson, AZ	2015-09-15	I support this petition except for the animal "agriculture" item. Animals are not plants - they are sentient beings.
Elizabeth Eastin	Tucson, AZ	2015-09-15	Fresh farm healthy food can be the difference somebody needs to keep them alive and living life full out or being sickly bed layers.
LARRY Balensiefer	Tucson, AZ	2015-09-15	These proposals seem wise, respectful, and timely. This type of order/organization is overdue.
John Holman	Beverly, OH	2015-09-15	Urban farming can be a necessity for survival in harsh times. Plus you know what you are getting.
