

CITY OF TUCSON DEVELOPMENT SERVICES DEPARTMENT

Commercial Gas Lines - Existing Gas Lines Only -

| | |
|------------------------|--|
| Description: | Repairing existing gas lines. |
| Application: | Building Permit Application |
| Req. Approvals: | Plumbing |
| Review Time: | Depending on scope of work this may be reviewed over the counter. However, altering, expanding or reducing gas lines requires more intensive plan review. Please speak with the commercial plumbing & mechanical plans examiner for more information. |
| Permit Fees: | Fee's are based on the scope of work. |
| Special Req.: | Arizona Licensed Contractor is required for all Commercial Projects. |

The following requirements must be shown on drawing before development services will approve and issue a permit. Drawings must have a minimum text size of 1/8" in all upper case.

1. Project Address
2. Permit Activity number
3. Company name
4. Name of person who prepared the drawing along with date drawing was prepared
5. North arrow
6. Floor plan of building showing location of the gas meter, routes of the gas piping, and the locations of the connected loads
7. Total load on the gas meter (BTUH)
8. Individual connected loads (BTUH)
9. Developed length of pipe
10. Pipe sizes
11. Location of any branch shut-off or automatic valves
