Good afternoon Jim,

Would you kindly send this email to the Planning and Zoning Commissioners. Thank you!

Dear Commissioners,

For the past four years the Tucson Metro Chamber has been working to re-write the land use code as a stakeholder on the Land Use Code Committee. Our involvement, along with other stakeholders and community groups, has aided in a more concise and simplified document. With that being said, more work still needs to be done and we do not feel many important issues have been addressed. The Metropolitan Pima Alliance has reached out to the Chamber and we have joined their working group, along with other community groups, in reviewing the code section by section. We ask you to delay any action you may take until we have had time to complete this review. We are confident the review can be done and any subsequent changes can be made before the implementation date of January 1, 2013.

Thank you for your work on the Planning and Zoning Commission and your consideration on this matter.

Allyson Solomon
