

Paying Invoices

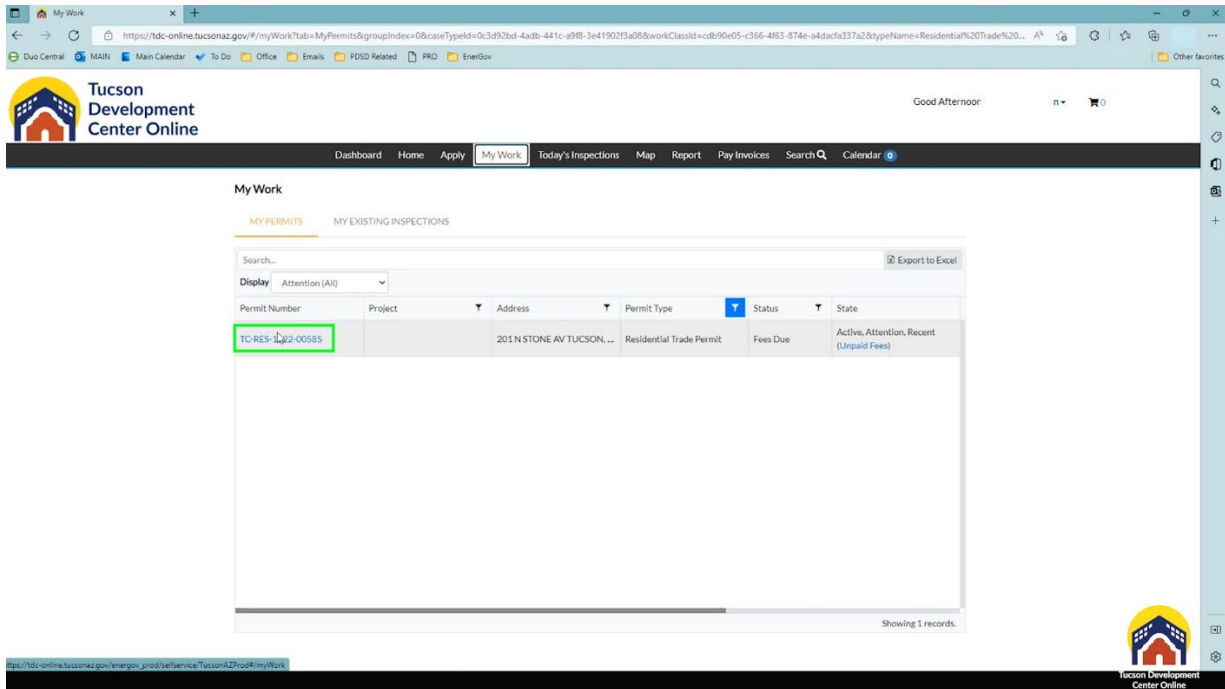

If you don't have an invoice number, or want to pay multiple invoices, log into your TDC Online account. If you do not yet have an account, [register now.](#)

The first screen you'll see after logging in is the Dashboard. Click "My Work" to view a list of your projects.

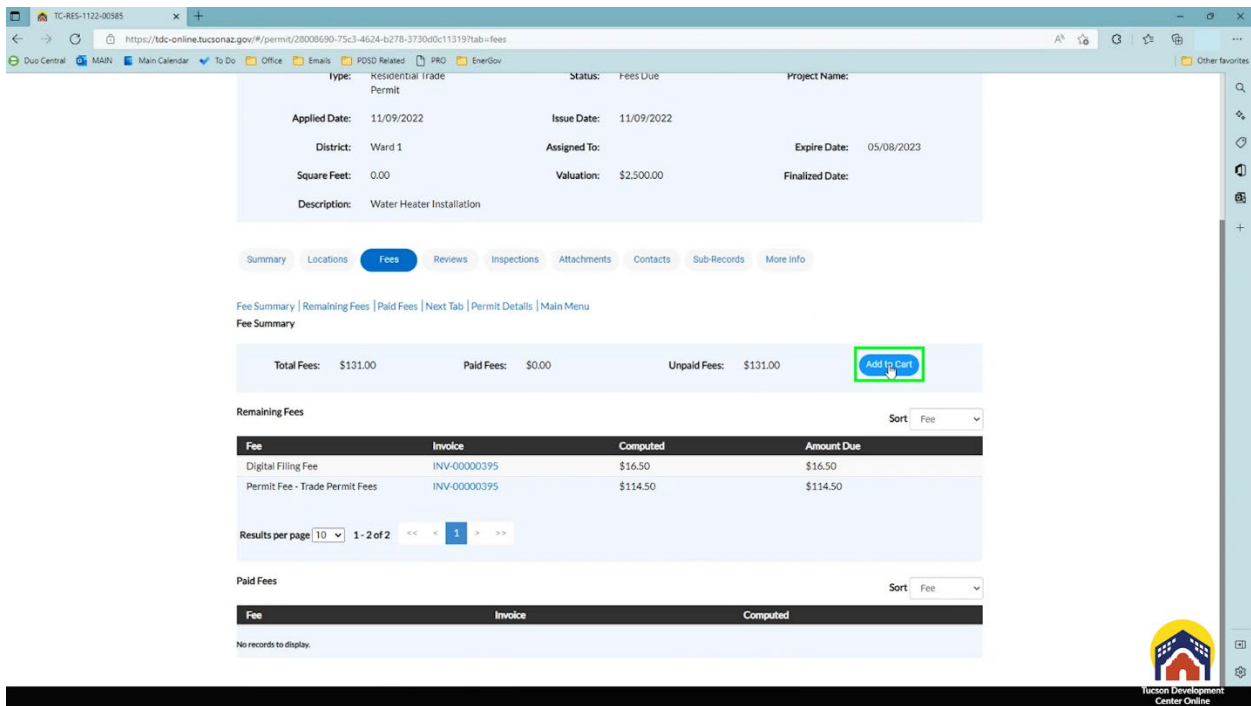

In the list of projects, look in the "State" column for a link that reads "Unpaid Fees". Click the link to view the project details. Click the permit number on the left to view the project details.

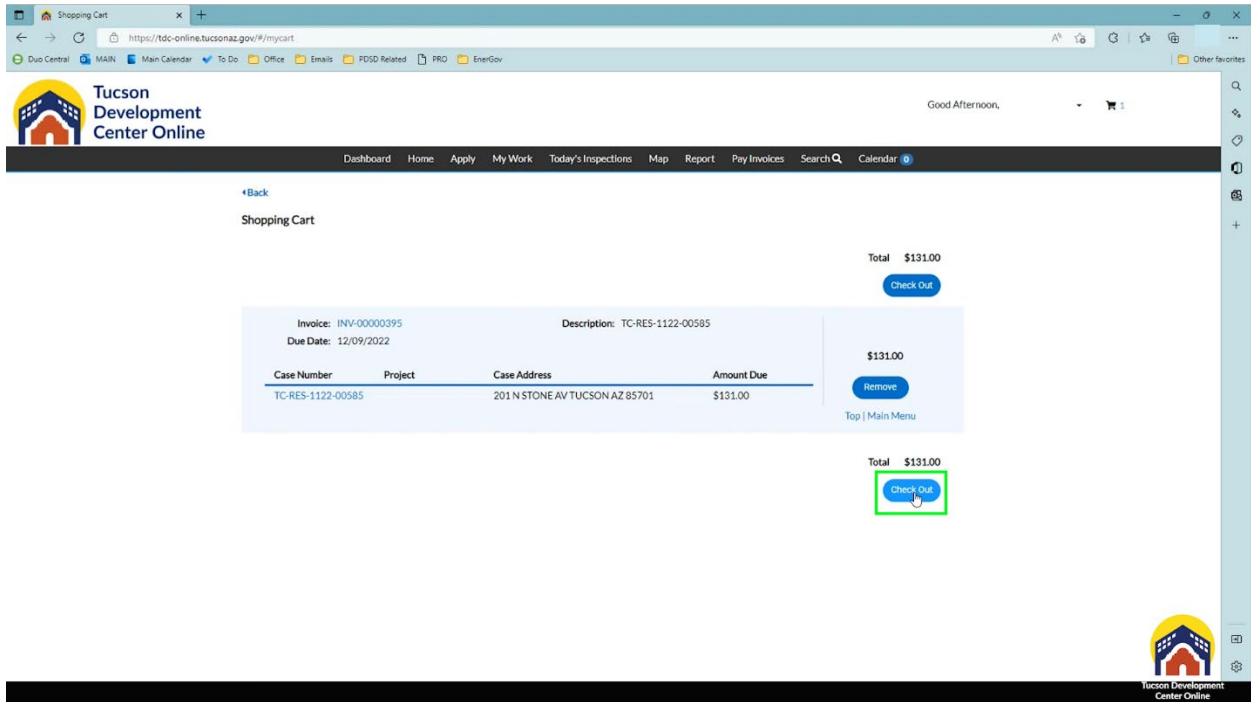

You will see a project details page. Click on the Fees tab to see a detailed list for all of the fees in your project.

To pay the fees, click the “Add to Cart” button. If you have other project fees to pay, you can return to the My Work page to add those fees to your cart as well.

Once you've added the fees to your cart, click the "Check Out" button. You'll then be redirected to the city payment portal. Follow the instructions to process your payment.

Enter your credit card information and click okay.
