Part 2

Working Group Exercise: The majority of the meeting was dedicated to an interactive exercise in which participants shared preliminary ideas about what should be addressed in historic preservation policies for Plan Tucson. Participants began by breaking into four subgroups. Next the participants in each subgroup individually jotted down on an exercise sheet policy concepts/statements using the handouts as references. Then participants within each subgroup shared one idea, which group facilitators recorded along with highlights of ensuing discussion. This was repeated for as many rounds as could be accommodated in the allotted time. The exercise

concluded with each subgroup reporting out to all meeting participants an overview of their discussions. Transcription of ideas will be posted the Plan Tucson website as referenced in the introduction to this summary.
