

Historic Preservation Layers, Housing & Community Development Department Map

<http://maps.tucsonaz.gov/hcd/>

View: Historic Properties, Historic Zones (Historic Preservation Zones; Neighborhood Preservation Zones), National Register Districts, and Archaeological Sensitivity Zones.

Historic Properties Layer = Provides **building footprints** for existing buildings within existing Historic Districts, for buildings listed on the National Register of Historic Places, and for buildings (primarily in downtown) that have been assessed for their historic significance and eligibility to be listed on the National Register of Historic Places. Footprints for existing buildings are color-coded by **contributing or non-contributing status**, and buildings demolished since district designation are identified with appropriate symbols (see Legend for clarification). Where available, links to **Property Inventory Forms** and **district documentation** are provided for almost all records.
