Subject: 2419 E Broadway

Jenn I would love to be there for the meeting. Unfortunately I will be in Pennsylvania on that date. What the Project Team decides for that area is of vital importance to myself and the entire Sam Hughes community. Please know that whatever you decide it would be appreciated if the betterment of the neighbors surrounding that area be given first priority. The Broadway Boulevard Project has put some very real stresses on that area. The uncertainty of the entire project has left neighbors feeling quite anxious about the future of their historic buildings on Broadway. This destruction signals a very real fear for the future of the street. Perhaps a well thought out yet not too disruptive design for this lot would allay those fears a bit. The unknown nature of the Project has held this portion of the neighborhood in a form of limbo. The buildings on Broadway cannot be kept up in all good faith when the owners may find them under the wrecking ball when The Project goes forward. This painful time has translated to other parts of the neighborhood as the Historic Designation itself may be endangered if enough Historic Buildings are changed or raised.

Thank you for your consideration of Hess factors when making decisions not only for this lot. It also for the entire Broadway Boulevard Project.

Respectfully yours,
Bill Craig
