

MILES

NEIGHBORHOOD ASSOC.

June 23, 2014

To Whom It May Concern:

The Miles Neighborhood Association has resolved that it opposes any alignment proposal for the Broadway Widening Project that encroaches southward from the current south edge of Broadway Boulevard into the Miles Neighborhood. The neighborhood agreed that the City of Tucson, Pima County and the Regional Transportation proposals regarding the project have all planned and approved alignments that expand Broadway to the north. Alignment proposals that bring Broadway Boulevard into the Miles Neighborhood would directly impact the neighborhood and the many schools, businesses, and residences that sit on Broadway. Prior to March, 2014, businesses, schools and residents along the south side of Broadway between Park Avenue and Campbell Boulevard had always been assured that Broadway will not be widened toward the south, and have made responsible business, education, investment, life and neighborhood decisions based on that fact.

Therefore, on May 21, 2014, the Miles Neighborhood Association resolved that:

The Miles Neighborhood Association supports the original planned use of right-of-way for improvement to the north side of Broadway and opposes bringing the right-of-way to the south side.

Thank you very much.

Sincerely,

Robert Hadel
Miles Neighborhood Association Co-Chair

Michael J. Sumner
Miles Neighborhood Association Co-Chair

Mary Anthony
Miles Neighborhood Association Secretary
