| 193 | 6/12/2014 | Email | Helen Erickson | Self | Broadway@ | Alternative Design | "As I and most of my fellow historic preservation associates are here in Rio Rico for the annual Arizona Historic Preservation Conference, I wanted to let you know that I do not support a road designed to increase speed through this area. A narrower road with narrower lanes will calm the traffic, reducing bicycle and pedestrian accidents. I understand that one option gives motorists a three- minute reduction in driving time. Placing this against greater safety for everyone else, it seems really overvalued. Thanks for listening, Helen Erickson" | - Forward to CTF |
| 192 | 6/10/2014 | Email | Philip Farhinger | Self | Broadway@ | Alternative Design | "Dear Citizens' Task Force and Project manager, I read the Op Ed views in the Sunday Star. I write this as a long time Tucson resident, simply to ask that you make your decisions on the Broadway widening project based not on which group is the most clamorous, but, instead, based on what in your sound professional judgement makes the most sense and is best for the future of the Tucson community. Thank you, Philip Fahringer" | - Forward to CTF |
