## Marist College

Originally built in 1915, the  
Marist building was  
reconstructed beginning in  
2017. It now functions as  
housing for seniors.

## Marist Midrise

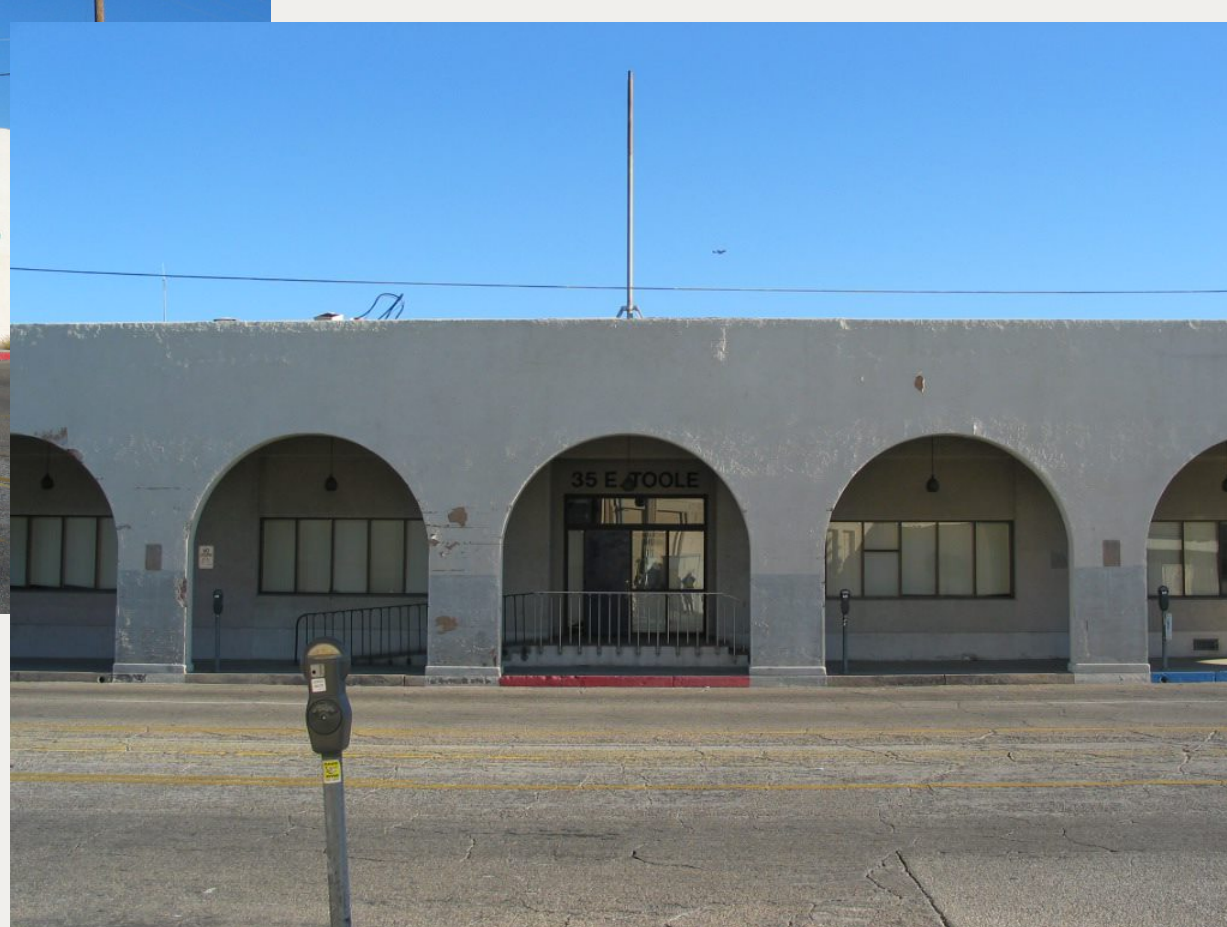

As part of the Marist project, the  
Marist Midrise was newly built as  
secondary housing for seniors.

## 35 E. Toole Ave

Now functions as a  
private business.

## Depot Plaza (MLK Building)

Now a mid-rise apartment building for seniors and people with disabilities.

Before: Tank removal

## Cadence Apartment Block

Formally a Greyhound Bus Terminal, the block was transformed into a mid-rise apartment complex and several private businesses.

Before: Bus Terminal

After

## SunLink Streetcar

Environmental assessments were completed along the streetcar route from west of I-10 through Downtown to the University area. Completion of the streetcar has led to nearly 3 billion in public & private investments.
