

## Statement of Interest for Brownfields Subgrant

The City of Tucson Environmental and General Services Brownfields Revolving Loan Fund (BRLF) provides low interest, short-term financing and subgrants for remediation of contaminated properties. A subgrant cannot be used in combination with discounted loans at the same site. The City of Tucson is soliciting statements of interest for properties that are fully assessed and ready for cleanup. The statement of interest submittal is the first step in the RLF application process, and its purpose is to determine applicant, site, and project eligibility. For detailed information on the BRLF see the City of Tucson Brownfields Cleanup Revolving Loan Fund Guidance Manual.

### Note:

Please note that funds will be made available on a reimbursement basis for costs incurred or according to a disbursement schedule. Please, do not commence work on the project until we inform you that work may commence. The signed subgrant documents and any other required documents must be in place and approved prior to commencing work. The BRLF cannot reimburse expenses incurred prior to the execution of the subgrant agreement.

### Instructions:

Please fill out this form in its entirety and attach the requested information. You may attach extra pages if needed. Do not include sensitive personally identifiable information.

### Site Ownership Requirements:

The BRLF requires that the subgrantee own the site at the time of the subgrant award and retain ownership throughout the term of the subgrant. Ownership is defined as holding the fee simple title to the site unless the EPA Project Officer approves a different ownership arrangement.

The City of Tucson BRLF Selection Committee works with the U.S. Environmental Protection Agency (EPA) and the Arizona Department of Environmental Quality (ADEQ) to determine eligibility.

Please note that additional information may be requested from the applicant by the City or GPAz before a final subgrant award decision is made.
