

As Monsoon Season starts to bring moisture into Tucson, crews from The Department of Transportation and Mobility Streets Maintenance Division deliver more than 500 barricades to approximately 150 dip crossings throughout the City.

Turn Around, Don't Drown

OPERATION SPLASH

During Operation Splash, City crews are on-call day and night to assist with placing barricades at flooded washes and dip crossings.

After the floodwater recedes, Street Maintenance crews begin evaluating conditions of the roadway and remove any accumulation of hazardous debris.

TURN AROUND DON'T DROWN

Motorists, we ask you please do not drive through a flooded wash. You do not know how deep the water is, or what condition the roadway is in under the water.

STORM-RELATED DAMAGE

You can report storm related damage that is in the right-of-way to:

TDOTConcerns@tucsonaz.gov
(520) 791-3154

FREE SAND BAG PROGRAM

Residents concerned with flooding can pick up free sand bags at:

- East parking lot of Hi Corbett Field, 700 S. Randolph Way, at Reid Park.
- 24/7 Self Serve Station
- Bags and sand provided, bring your own shovel.

Sand bags available until the Operation Splash Program concludes in mid-September.

Protecting the traveling public on City streets during Tucson's summer thunderstorm season is the objective of the Tucson Department of Transportation and Mobility Operation Splash campaign.
