

Az Rec Playground Proposal for McCormick Park

Description of Play Elements

TREEHOUSE
SAFETY PANEL

Treehouse style safety panel promotes imaginative play. The panel uses 100% post-consumer recycled planks.

KB TANDEM NET
CLIMB SGL

Tandem Net offers multiple play paths kids can use to climb solo or with friends. This simple rope climbing net gives kids a classic entrance to a structure. Maybe they're climbing a spider's web or joining a captain's crew—either way, they'll develop their coordination, strength, and sense of fun!

TREEHOUSE WINDOW PANEL

Treehouse style safety panel promotes imaginative play. The panel uses 100% post-consumer recycled planks.

KB DBL WALL
CLIMBER 64"

Double Wall Climber gives kids a variety of ways they can climb to a 64” deck. This climber challenges kids while cultivating a fun aesthetic for the playground.

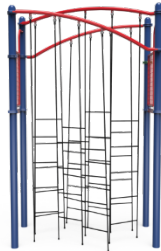

Birch Transfer Station introduces kids to their blended landscape. Perforated steel railings on either side offer support while featuring the collection’s thematic birch branches and sheet plastic leaves. Three steps offer a simple climbing challenge that elevates kids into the play structure and helps shape their play narrative.

DBL WIDE
PLASTIC SLIDE
W/DK EXTENSION

Playground slides are one of the best ways to motivate kids to get outside and be active. With the Little Tikes Commercial double slide, children can enjoy double the sliding fun. They can turn sliding into a friendly competition to see who can reach the bottom the quickest, building good sportsmanship skills along the way.

KB CRAZY CURTAIN CLIMB

Crazy Curtain presents a unique, unstructured play opportunity for your playground. Kids can zig and zag through the net in a variety of play paths, experimenting with perceived risk. The curtains attach to 3 curved horizontals that link between a 6’ and an 8’ deck.

HANG
OUT

This pair of seats feature comfortable grooved design that invites friends to bond on the playground. Here, kids can plan adventures, discuss their dreams, and make long-lasting friendships!

MINI GLIDING
GEARS PANEL

Three internal gears are displayed on this spinning insert. As kids rotate it, they'll be able to experience new patterns as well as learn about cause and effect.

CRAWL
PANEL

Whether they use it as a portal to another dimension or a tunnel to a secret underground hideout, kids will love discovering their next adventure through the circular opening of Crawl Panel.

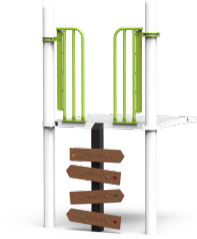

QUANTUM II
SLIDE

Accent your playground with this fully customizable slide! Sectioned design allows you to choose your colors—whether you'd like to show your school pride, your community's support, or build upon a myriad of magical themes, this slide is the perfect way to welcome kids of all ages into the playground.

The favorite of the playground, no play space is complete without a slide! There's no greater feeling than rewarding a trek to the top with a smooth glide back down. Not to mention that sliding can also boost confidence, improve sensory development, teach social skills, and encourage an overall active lifestyle.

KB TRAIL
CLIMBER 56"

Adventurers can hike their way from one activity to the next using this climber. Realistic faux wood helps to create the look of a real trail marker, which encourages kids to imagine all kinds of play scenarios. This collection creates a play space fuses modern construction and natural aesthetic to inspire exploration and discovery in any community.

CYLINDER
CLIMBER

Kids will love popping in and out of rabbit holes, pipelines, or whatever they imagine Cylinder Climber to be! This unique structure helps kids reach the deck or explore the climber on its own.

SGL WIDE
PLASTIC SLIDE

Normal slide that is a little wider than typical slide for additional fun play.

TREEHOUSE
POD
CLIMBER

Promotes strength and balance.

NU-EDGE BIRCH
ARCH BRIDGE 8'

This bridge inspires a multitude of play scenarios with its perforated steel construction featuring birch branches and sheet plastic leaves. Designed with a slight arch, kids can use this bridge as a gateway to a wooded adventure or as a “hiding” spot in an imaginative game of hide-and-seek.

FIRE ESCAPE
CLIMBER

Kids can use Fire Escape Ladder to travel from ground to deck—the twist at the top offers easy transition, while the steel construction ensures generations of climbing fun.

SINGLE
FUNWHEEL

This innovative, rotating overhead event helps kids build strength and coordination.

SOLO
SPIN

Kids of all ages can enjoy the whimsy of Solo Spinner! Friends can take turns giving this unique piece of equipment a whirl, improving their proprioception and vestibular system along the way.
