Hi Carver,

I was having some technical difficulties and was unable to respond when Commissioner Lane was expressing her concerns regarding the burden placed upon residents that have to repair the sidewalks in front of their homes. I did note her concern, and we do not have a fund source to cover the cost of the sidewalk repairs citywide. We are working on developing a program to assist property owners that qualify for utility relief, but that is as far as we are going at this time.

Thanks,
Jim
