Solar APP+ **Now Available**

We are pleased to share that Tucson is on SolarAPP+

What is SolarAPP+?

SolarAPP+ (Solar Automated Permit Processing Plus) is an online platform that automates the plan review process by issuing permits to licensed contractors installing code-compliant residential photovoltaic systems with or without energy storage.

Instant Permitting

System specifications are entered in SolarAPP+, resulting in an instant permit and inspection checklist.

Ensures System Compliance

SolarAPP+ automatically cross-checks inputs supplied by the contractor to ensure safety and code-compliance.

Get More Done, Faster

This automation removes potential timing delays, reducing install times and project cancellations.

How Do I Get Started?

1. REGISTER TODAY

2. Verify your contractor and local business licenses

3. Take advantage of optional, free trainings

Did You Know?
SolarAPP+ has a dedicated Help Center to ensure contractors and installers are set up for success when submitting projects.
