

# Upgrades for Multifamily Properties Program

## Rebate pricing table

Rebate pricing is per fixture. An estimated rebate amount will be provided after an inventory of the eligible upgrade needs of every unit is completed by Tucson Water staff. \*Commercial clothes washers will be approved on a case by base basis.

Final rebate amount is determined after a post installation visit is completed where Tucson Water confirms that the qualifying items were installed. Additionally, per item rebate amount will not exceed the cost of the fixture or appliance and the labor for the installation of the item, up to the stated item price, as documented on receipts and invoices. Refer to website for requirements and lists of qualifying products.

Customers will receive a 1099 for the reimbursement payment from the City of Tucson.
