HOMELESS NEEDS ASSESSMENT
APRIL-JUNE 2023

- 389 adults experiencing homelessness surveyed.

- 28% of respondents over the age of 55.

- 51% had been homeless for 1 year or longer.

- 40% reported having <u>ever</u> completed a housing assessment.

- Shelter/housing, food security, transportation, laundry, shower/bathroom facilities among the most commonly unmet needs.

- 60% of respondents who stayed in shelter/housing programs described their experience as positive.

SYSTEM MODELING
APRIL-JULY 2023
Preliminary Data – Subject to Change

	Current Bed Inventory	Bed Inventory Needed	Gap
Emergency Shelter/Safe Haven	952	2,529	**1,577**
Transitional Housing	330	475	**145**
Rapid Rehousing	641	3,244	**2,603**
Non-Time-Limited Housing	1,953	4,356	**2,403**

Estimated Annual Cost = $118.1M-$165.4M

Most critical shortfalls in bed availability exist in programs serving non-veteran adults, older adults, and survivors of domestic abuse/human trafficking.
