

# Tanque Verde Road and Sabino Canyon Road Intersection

## PROJECT OVERVIEW

Improvements to the Tanque Verde Road and Sabino Canyon Road intersection were completed in August 2012. The improvements were funded through the Regional Transportation Authority (RTA) and provided the following improvements.

### SABINO CANYON ROAD INTERSECTION IMPROVEMENTS:

- Two through lanes and two right- and left-turn lanes on the southbound approach
- Two through lanes, two left-turn lanes and one right-turn lane on the northbound approach

### TANQUE VERDE ROAD INTERSECTION IMPROVEMENTS:

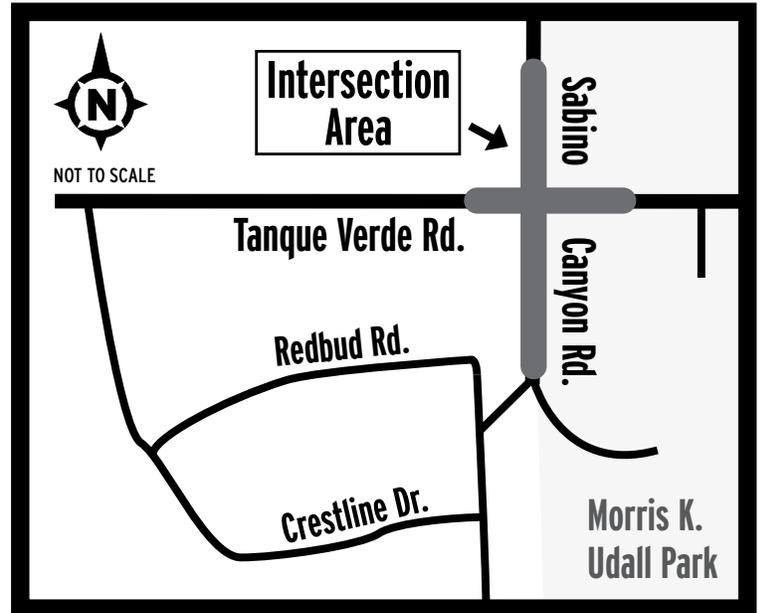

- Three through lanes and two left-turn lanes on the eastbound approach
- Three through lanes, and one right- and left-turn lane on the westbound approach

### OTHER IMPROVEMENTS:

- Improved drainage
- Relocation of the existing bus layover station on Sabino Canyon Road to about 500 feet south of its former location
- Bicycle and pedestrian accommodations on the east side of Sabino Canyon Road

## PUBLIC INVOLVEMENT

Throughout the course of the project, there have been ongoing meetings with the public, a community-based Task Force, area businesses, nearby residents and neighborhood/homeowners' associations. Input at these meetings has contributed to a number of design and construction considerations and modifications.
