

Metropia Carpooling

Carpooling with family, friends, and coworkers is easy, and finally so is getting rewarded for doing it. Metropia's new DUO feature, Driving Up Occupancy, lets you pick up your friends and pick up rewards all with the click of a button.

Each time you carpool you take a car off the road, reduce traffic, and eliminate harmful CO₂ from our airways. **With DUO, you and your passengers will also earn reward points that you can redeem for prizes** like gift cards to your favorite stores and restaurants. Even better, we'll enter you into raffles for a chance to win exclusive prizes like tickets to special events, must-haves like smartwatches and custom-fit headphones, and more.

Other benefits to carpooling include reducing your gas expenses, using faster HOV lanes, and having a companion along for the ride!

It's not just Metropia users who benefit from DUO, though. By removing cars from the road, we're improving traffic flow for everyone and reducing hazardous emissions from the air we all breathe.
