The Regional Transportation Authority is a special taxing district with a mission to deliver transportation projects that improve our region's mobility, safety and environment. District voters approved the 20-year RTA plan in 2006. The RTA's transportation project investments of over \$1 billion, generated by the RTA's half-cent excise tax, are working to support the region's economic vitality and improve your quality of life. The construction of this project was managed by the City of Tucson. For more information, visit RTAmobility.com
