Subject: Private Improvement Agreement Utility Notification

Dear Consultant:

The following is a list of utility companies which have requested to be notified of any proposed privately funded improvements within the public-right-of-ways.

As a way to verify that the utilities listed below have been notified, a plan receipt confirmation from each utility company must be submitted to this office prior to final PIA plan approval. The City's involvement will be to verify that utilities have been made aware of the propose improvement plans. It is the consultant responsibility to coordinate its work with all of the impacted utilities as indicated by Blue Stake.

Attached is a Plan Receipt Form which may be used to document that the participating utility has received a copy of the improvement plans.
