Greetings Fellow Tucsonan,

Thank you for reaching out regarding traffic mitigation in your neighborhood! This process falls under the Neighborhood Traffic Management Program (NTMP), within the City of Tucson, Department of Transportation and Mobility (DTM).

Here is some basic information to get you started:

- The City of Tucson does not assist with payment of the installation of traffic mitigation. Therefore, the payment cost will fall on the residents or businesses of the area.

- You will have to hire a licensed contractor to install the mitigation, but the city will assist in this effort.

- The city will assist with determining a suitable location and type of mitigation.

- Once a location and type of mitigation is agreed upon you will need to obtain at least 60% of the abutting area to sign a petition for approval of the said mitigation (100% of abutting area for alley closures.) We will provide you with the petitions and the highlighted map of the area of required signatures.

Types of Mitigation and Approximate Costs
