Press Release: Sun Tran/TransDev and Teamsters

Just after 1am on Wednesday morning, Sun Tran/TransDev and the Teamsters signed a tentative agreement ending the labor dispute. Later that afternoon, the settlement was ratified by Local 104. It's great to see the buses rolling once again.

The settlement involves the expenditure of nearly \$30M in public money. Taxpayers deserve to see how their hard earned money is being spent. The terms of the settlement should have been posted online by both TransDev and the Teamsters immediately following ratification. Now, two days later, the public is still waiting.

It is inexcusable for the parties to this settlement to refuse making the precise terms of the settlement public. We call on the parties to the agreement to post the terms on their respective websites immediately.
