

SECTION 0201

MOBILIZATION

0201.0100 GENERAL

0201.0101 Description of Work. The work under this section applies only to Agency Capital Improvement Projects. The work shall consist of preparatory work and operations, including but not limited to, the movement of personnel, equipment, supplies and incidentals to the project site; the establishment of all offices, buildings and other facilities necessary for work on the project, and for all other work and operations that must be performed; and authorized costs incurred prior to beginning work on the various items on the project site.

0201.0200 PRODUCTS

0201.0201 Materials. (None Specified)

0201.0300 EXECUTION

0201.0301 General. Unless otherwise specified in the special specifications, mobilization shall be considered as incidental to and included in the amount bid for the contract.

When noted in the special specifications as an individual item of work, mobilization will be measured for payment by the lump sum as a single complete unit of work.

Payment for mobilization, when specified in the special specifications as an individual item of work, shall be measured as provided above and will be made at the contract lump sum price, which shall be full compensation for supplying and furnishing all materials, facilities and services and performing all the work involved as specified herein.

When noted in the special specifications as an individual item of work, partial payments under this item will be made in accordance with the following provisions. Reference herein to the original contract amount shall mean the original contract amount exclusive of mobilization:

When five percent of the original contract amount is earned, 50 percent of the amount bid for mobilization will be paid.

When ten percent of the original contract amount is earned, 100 percent of the amount bid for mobilization will be paid.

The total sum of all payment(s) shall not exceed the original contract amount bid for mobilization, regardless of the fact that the contractor may have, at his option, shut down his work on the project or moved his equipment away from the project and back again.

The adjustment provision of Subsection 0104.0200 of the standard contract conditions and the retention of funds provisions of Subsection 0109.0700 of the standard contract conditions shall not apply to the item of Mobilization.

When other contract items are adjusted as provided in Section 0104 of the standard contract conditions, and if the costs applicable to such items of work include mobilization costs, such mobilization costs will be considered as recovered by the contractor in the lump sum price paid for mobilization, and will be excluded from consideration in determining compensation under Subsection 0104.0200 of the standard contract conditions.

When mobilization is not included as a contract item, full compensation for any necessary mobilization required will be considered as included in the prices for the various contract items involved and no additional compensation will be made.
