Tucson Water Pipeline Repairs: East Glenn Street and Columbus Boulevard

Tucson Water crews will be undertaking repairs to a pipeline segment at the intersection of Glenn Street and Columbus Boulevard. The work has resulted in the closure of northbound and southbound traffic lanes of Columbus Avenue at Glenn Street. Northbound traffic along Columbus Boulevard is being diverted to Flower Street. Southbound traffic must turn at Glenn Street. The repairs are expected to take two weeks to complete. Motorists are urged to obey traffic control devices, and to use alternate routes while the work is being done. Care should be taken while driving in the area to ensure the safety of construction workers overseeing the repairs.
