### **Annual Water Quality Reports for 2014 Now Available Online**

Tucson Water's 2014 Annual Water Quality Reports for its main and its ten isolated systems are posted online at [www.tucsonaz.gov/water/wqreport](http://www.tucsonaz.gov/water/wqreport).

The EPA requires that public water providers make available water quality data reports to their customers no less than annually. This standard and others are covered by the Safe Drinking Water Act.

“Our water quality staff talk with and e-mail customers on a daily basis,” said Fernando Molina, Tucson Water Public Information Officer. “There’s an increased level of interest in the makeup of CAP and groundwater. Water quality means different things to different people.”

The 2014 Annual Water Quality Report for the main system is also available in Spanish. The web page also has links to monthly water quality reports and annual reports dating back to 1998.

Paper copies of water quality reports can be requested by calling (520) 791-2544.
