

REBATE PROGRAM

COMMERCIAL & INDUSTRIAL

Contact Tucson Water at (520) 791-4331 to verify eligibility **BEFORE** purchasing a urinal.

Replace Your Urinal Today

Tucson Water offers a urinal rebate program to encourage and assist commercial & industrial customers who wish to purchase and install new, high-efficiency urinals. Replacing older urinals with high-efficiency models is a cost-effective way to conserve water and save money.

HIGH-EFFICIENCY URINAL

Which Urinal Qualifies for a Rebate?

A WaterSense certified high-efficiency urinal or water-free urinal.

How Much is the Rebate?

Tucson Water will rebate:

- **\$200** for each WaterSense certified high-efficiency urinal
- **\$200** for each water-free urinal

How Much Water Will I Save?

Replace one urinal that uses 1.5 gallons per flush or more and you may save more than 4,000 gallons of water per year, depending on use. You may also reduce the costs of your water and sewer bills.

Do You Qualify?

Owners and managers of commercial and industrial properties who are considering replacing older, less-efficient urinals can stretch their investment dollars further with Tucson Water's Commercial and Industrial High-Efficiency Urinal Rebate Program.

Will this be a Clean and Safe Way to Flush?

WaterSense certified high-efficiency urinals are held to standards that include offering superior flush performance and using permanent surfaces that inhibit stains and odors. To carry the label, products are independently tested and certified to meet EPA criteria.

Aren't High-Efficiency Urinals Costly?

Prices are comparable to those for regular urinals and toilets. Tucson Water recommends that you compare dealer prices.

Look for the Logo

Look for the WaterSense logo to select a high-efficiency or water-free urinal that qualifies for the rebate and meets water efficiency and performance standards. The WaterSense label alerts customers to products and programs that save water without sacrificing performance or quality. WaterSense is sponsored by the U.S. Environmental Protection Agency (EPA). A list of approved urinals can be found on the EPA website at epa.gov/WaterSense/product_search.html
