Nov. 22/23 Update on Water Main Work at 22nd St. and Country Club

Water valve work on a water transmission main continues, causing some traffic restrictions on eastbound 22nd Street at Country Club Road.

Beginning at 6 a.m., Saturday, November 22, eastbound 22nd St. will be reduced to one travel lane just west of Country Club. The left turn lane to northbound Country Club will be closed. In addition, the left turn lane to eastbound 22nd from southbound Country Club will be closed.

All lanes should reopen by 2 p.m. on Saturday. Work will continue on Sunday, which may lead to additional restrictions on both directions of travel on Country Club.

The project is expected to be completed by the end of November. Updates will be sent for traffic conditions as needed.

Steel plates will be temporarily installed to allow traffic in all lanes when work is not taking place. There will be no interruption of water service to customers.

Motorists should be prepared for traffic delays and plan accordingly. If driving in the vicinity, please exercise additional caution to help ensure the safety of the workers.
