22nd St., West of Alvernon, Closed Due to Water Main Break

(1430 hours) Westbound 22nd Street at Alvernon Way is closed to through traffic due to a water main break that took place early this morning. Westbound traffic on 22nd St. will be routed north or south on Alvernon. Right turns from southbound Alvernon and left turns from northbound Alvernon will not be permitted at the 22nd St. intersection.

The break has not affected water service to customers. Crews are working to excavate and expose the damaged 63-year-old, 30-inch water main pipe to determine the best way to complete repairs.

The stretch of roadway is closed until further notice. 22nd St. and Randolph Way, to the west, remains accessible. Motorists, bicyclists, and pedestrians are asked to exercise additional caution and be prepared for delays in the area. Detour signs have been placed on the pedestrian path along Reid Park.

More information and pictures are online at <https://www.tucsonaz.gov/water>.
