Westbound Lanes Closed on Escalante, Prudence to Kolb

(1600 hours) A break in a 12" water main has led to the closure of the westbound lanes of Escalante Rd. between Prudence Rd. and Kolb Rd. This includes the left turn lane to southbound Kolb Rd. Westbound traffic is being diverted to an eastbound lane in the affected area.

Due to weather conditions, these restrictions and detours will be in place until further notice. The hole will be covered with backfill material and plating. Tucson Water and contractor crews will resume repairs as soon as possible.

Motorists in the area are asked to exercise additional caution in the area and be prepared for traffic delays.
