REBATE PROGRAM POLICY

Tucson Water will rebate one-half of qualifying residential gray water irrigation system costs up to \$1,000 per household. The rebate covers both materials and installation costs. Funds are limited and will be distributed on a first come, first served basis.

The gray water system starts at the drain. The rebate will pay for pipe, tanks, pumps, fittings, valves, filters, irrigation system parts, installation costs, and other related items. Basin materials and installation costs will be eligible if not part of a rainwater harvesting project. The rebate will pay up to \$200 for design.

The rebate will not pay for:

- hoses and other less permanent fixtures
- sinks, shower pans, bathroom remodels, etc.
- workshops and planning

Tucson Water customers must meet the following guidelines to qualify for the program:

1. The installation residence must be located within Tucson Water's service area.
2. Applicant must attend a free two-hour residential gray water workshop to qualify for the rebate program. To sign up for the class, call SmartScape at (520) 626-5161. A class schedule is available at ag.arizona.edu/pima/smartscape.
3. Rebates are available for retrofitting existing homes, as well as connecting new homes to gray water irrigation systems.
4. The system must be permanent.
5. Only gray water systems purchased after January 1, 2013, qualify for a \$1,000 rebate.
6. Contact the City of Tucson Planning & Development Services Department at (520) 791-5550 to find out if a permit is needed:
 - A permit is not required to tap into a pre-existing gravity stub-out from the washing machine.
 - A permit is required to modify drainage plumbing/piping from any fixture.
 - Homeowners may perform plumbing work on their own residence; otherwise, licensed contractors must be used.

Please note:

1. If a pump is used to distribute the gray water, a reduced pressure principle assembly (RPA) must be installed on the service connection to protect the public potable water system from potential contamination.
2. Rebate applications must be complete and are subject to verification and availability of funds.
3. Tucson Water reserves the right to verify and inspect rebate devices.
4. Allow six to eight weeks for your completed application to be processed and receive a rebate check.
5. **Original itemized receipt(s)** of materials and labor are required to process the rebate application. (Tucson Water does not accept hand-written, scanned documents, or photocopies.)
6. Receipt(s) submitted must be from licensed businesses/contractors and show:
 - Itemized work and/or materials
 - Date work performed or materials purchased
 - Applicable sales tax and total

Submit to:

City of Tucson Water Department
Public Information/Conservation Office - Gray
PO Box 27210
Tucson, AZ 85726-7210
