Reclaimed Water Line Failure Closes Glenn Street at Magnolia Avenue

A 30” reclaimed water line has failed, resulting in the closure of Glenn Street at Magnolia Avenue. The location is between Craycroft and Swan Roads. The eastbound lane of Glenn is open. The westbound lane between Cloverland and Sherry Avenues is closed.

The reason for the line failure is unknown. A sinkhole approximately 3 feet in diameter and 18” deep has appeared. Tucson Water and contractor crews are on site.

Motorists are urged to avoid the area or find another route. Potable (drinking) water service in the vicinity is not affected. Repairs are expected to take up to two weeks.
