Water Valve Replacement Will Restrict Traffic on Mission Rd. at Irvington Pl.

Beginning at 6 a.m., Monday, June 2, and continuing through Friday, June 6, traffic will be restricted and detoured at the intersection of Mission Road and Irvington Place.

The affected area is north of Irvington Road. Message boards are in place in both directions along Mission Road. KE&G, a contractor for Tucson Water, will be replacing water valves in the roadway.

Mission Road will be reduced to one lane northbound and southbound through the work zone. Only eastbound and westbound right turns will be permitted on Irvington Place at its intersection with Mission Road.

Motorists should avoid the intersection during the scheduled work time frame if possible and are asked to exercise additional caution in the area in order to help ensure the safety of the workers.
